An investigation game set in a retro-futuristic world.

Key Features :

Drive passengers across a semi-open space station in your taxi and uncover their personal stories

Investigate a mysterious signal that challenges a carefully controlled society

Shape your journey through your dialogue choices and actions

Explore a handcrafted retro-futuristic world inspired by the 1960s in first person

Why Stardream Stands Out

Stardream immediately catches the eye with its striking retro-futuristic art direction, powered by a custom rendering technology developed in-house by Rebel Pixel. The game blends narrative investigation with a unique taxi-driving gameplay loop, offering a fresh take on storytelling.
