

Nirji Ventures Relaunches as Full-Service Fund-Raising and Strategic Advisory Firm, Targeting Asia and the Americas

Singapore-headquartered firm brings 35+ years of deal experience to a redesigned advisory practice spanning M&A, capital raising, and business transformation

SINGAPORE, SINGAPORE, April 18, 2026 /EINPresswire.com/ -- Nirji Ventures Pte. Ltd., a Singapore-based advisory firm, today announced the relaunch of its practice as a full-service [investment banking](#) and strategic advisory firm, serving mid-market companies across Asia, the Middle East, North America, and Europe. The relaunch marks a significant evolution from the firm's earlier venture studio model to a principal-led advisory practice with dedicated capabilities across mergers and acquisitions, capital raising, and [business transformation](#).

Nirji Ventures

The newly repositioned firm brings together over 35 years of combined deal experience, having closed 200+ transactions and raised more than USD 1.35 billion in capital across 30+ countries. Nirji Ventures now serves a broad range of clients — from pre-seed founders navigating their first institutional raise to established enterprises pursuing cross-border M&A and international expansion.

"We have spent years building and investing in companies across Asia and beyond, and what we kept finding was a consistent gap in the market — founders and mid-market executives who needed institutional-quality advisory but couldn't access it because they weren't large enough for bulge-bracket banks," said Siddharth Pandit, Founder of Nirji Ventures. "That gap is exactly what we are built to fill."

The relaunched firm operates across five core practice areas: investment banking for M&A and capital raising, [startup consulting](#) for founder-stage companies, business transformation for enterprise modernisation, financial advisory for capital restructuring, and global expansion advisory for international market entry. All engagements are principal-led, with every mandate managed directly by senior partners.

Co-Founder Sanjay Pandit, who anchors the firm's investment banking practice, added: "Our model is differentiated by one thing — we invest alongside our clients. We bring the same discipline to an advisory mandate that we bring to our own portfolio companies. That alignment of incentives is what creates outcomes."

Siddharth Pandit, Founder Nirji Ventures

Nirji Ventures has active operations across Singapore, India, the Philippines, UAE, and the United States, with a portfolio spanning technology, healthcare, financial services, and consumer sectors.

“

We have spent years building and investing across Asia, and what we kept finding was a consistent gap in the market — founders and mid-market executives who needed institutional-quality advisory”

Siddharth Pandit
