

Language Services Associates Under Construction in Epic Toolbox for MyChart and Discharge Translation

LSA is developing Epic-integrated translation for MyChart patient messages and discharge instructions.

PA, UNITED STATES, April 21, 2026 /EINPresswire.com/ -- [Language Services Associates](#) Inc. (LSA), a leading provider of language access, interpretation, and translation solutions for healthcare organizations, will soon provide a new solution available to integrate with [Epic](#) that will quickly translate patient MyChart messages and discharge instructions for patients and their healthcare providers.

LSA's upcoming Epic integration will enable translation of patient communications directly within the Epic platform.

LSA's dedication to patient-centered care is underscored by its inclusion in the Toolbox for Remote Interpretation and the new Toolbox Under Construction category, Translation of Patient Communications. With secure, state-of-the-art technology that meets Epic's recommended connection practices, Epic users can trust they are receiving top-quality services when utilizing LSA's audio and video solutions. This upcoming feature will enhance services even further within the Epic system for both caregivers and patients alike.

“

We are consistently improving and expanding our solutions for greater ease of use, enhancing the overall experience for healthcare providers and patients,”

Scott Cooper, CEO of LSA

Once development is finalized by LSA and Epic, this solution will allow staff to access LSA's professional translation services in 180+ languages directly within Epic. This will enhance clinician workflows and guarantee that

patients receive essential information in their preferred language.

“We are consistently improving and expanding our solutions for greater ease of use, enhancing the overall experience for healthcare providers and patients,” said Scott Cooper, CEO of Language Services Associates. “This new solution will lead to expedited services and a stronger emphasis on patient-centered care.”

The integrated translation functionality will enable Epic users to streamline workflows, promote consistent usage across departments, and provide equitable care to all patients.

Additional information will be available as development continues. For more details, visit Language Services Associates – Translation of Patient Communications in Toolbox Under Construction in the Epic Showroom.
