

Lazer Logistics' Chris Bennett to Speak on Fleet Technology and Yard Operations at ACT Expo

Session will explore how technology is improving efficiency, visibility, and performance in yard operations

ALPHARETTA, GA, UNITED STATES, April 28, 2026 /EINPresswire.com/ -- [Lazer Logistics](https://www.lazerlogistics.com) announced that Chris Bennett, Vice President of EV, Energy, and Sustainability, will speak at [ACT Expo](https://www.actexpo.com) in a session focused on how fleet technology is reshaping warehouse and logistics operations.

The session, "Warehouses & Logistics Fleet Sector: How Fleet Technology Is Redefining the Yard and the Network," will take place from 7:45 a.m. to 8:45 a.m. and will explore how operators are using equipment, data, and automation to improve efficiency, reduce congestion, and drive more reliable performance across the supply chain.

Bennett will join a panel of industry leaders, including:

Kurt Neutgens, President & Chief Technology Officer, Orange EV

Peter Bratt, Reliability Superintendent, Global Container Terminals

Lauren Miller, Manager of Sustainability, ITS Logistics

Emmanuel Carrillo, Chief Executive Officer, Talon Logistics Inc.

I'm Speaking

ACT EXPO

May 4 - 7, 2026 | Las Vegas

THE LARGEST **FLEET TECHNOLOGY** CONFERENCE & EXPO

Wednesday May 6th
Warehouses & Logistics Fleet Sector: How Fleet Technology is Redefining the Yard and the Network
7:45 – 8:45 am

[actexpo.com](https://www.actexpo.com) • [#ACTExpo](https://twitter.com/ACTExpo)

“As supply chains are pushed to move faster and operate more efficiently, the yard has become a critical control point,” said Bennett. “This session will focus on how fleets are using technology to improve visibility, reduce delays, and create more predictable operations.”

The discussion will cover AI and automation in yard operations, deployment of electric and connected equipment, and how data is being used to drive faster decision-making and measurable gains.

ACT Expo brings together leaders across transportation, logistics, and sustainability to explore the technologies shaping the future of freight movement.
