Gahwyler attended Uncorrelated Puerto Rico alongside leading allocators, fund managers, and service providers across the alternatives space. The conference featured a robust lineup of keynote speakers and panel discussions spanning private credit, real assets, tokenization, AI-driven strategies, Puerto Rico tax incentives, and event-driven public market investing.

Meteora Capital’s presence at the conference extended to the main stage, where Vik Mittal, CFA, Managing Member and Chief Investment Officer, participated in the panel “SPACs and Beyond: Mining Complexity for Alpha in Public Markets.” The session examined how investors are finding alpha in complex, structurally inefficient public market opportunities.

The conference appearance reflected Meteora Capital’s continued commitment to engaging the institutional allocator community. Meteora’s flagship fund, Meteora Select Trading Opportunities (MSTO), was recently named winner of the Multi-Strategy (Up to $1bn) category at the 2025 HFM U.S. Performance Awards, hosted by With Intelligence, and was previously honored as Event-Driven Multi-Strategy Fund of the Year at the 2024 HedgeWeek Emerging Managers Awards.
