

Hubert Freidl — Scaled Across 50+ Countries — Now Advising Select Ventures from Dubai

After 25 years building international businesses, Freidl brings hard-won expertise to select ventures as Strategic Advisor and Business Architect.

DUBAI, UNITED ARAB EMIRATES, April 23, 2026 /EINPresswire.com/ -- Hubert Freidl, a seasoned entrepreneur and business architect with 25 years of experience building and scaling international business structures, has established his strategic advisory operations in Dubai, UAE.

Over the course of his career, Freidl built and led business operations across more than 50 countries, growing his group to over 1,500 employees, 150,000 partner businesses, tens of thousands of sales partners, and millions of customers worldwide.

His work spanned distribution systems, digital platforms, marketplace models, and large-scale partner ecosystems — built not through capital, but through a clear vision and disciplined execution.

Now based in Dubai, Freidl works as a strategic advisor and business architect, partnering with a carefully selected group of ventures on strategy, structure, and execution. His focus is on building businesses that are structurally sound, economically resilient, and designed for long-term value — not short-term growth.

Dubai's position as a global business hub aligns naturally with Freidl's international outlook. "The founders and investors shaping the next decade are here," he noted. "Dubai is not a trend — it is infrastructure for serious business."

Freidl's advisory operations are deliberately selective. He works with a small number of ventures at any given time, bringing full attention and direct involvement to each engagement.

Hubert Freidl — Entrepreneur and Strategic Advisor based in Dubai, UAE. 25 years of building international business structures across 50+ countries. Now partnering with a carefully selected group of ventures on strategy, structure, and execution.

I built it once from nothing.
The lessons are priceless.
What I bring today is not
theory — it is the direct
experience of building and
scaling at a level most never
encounter.”

Hubert Freidl
