

PicoWay® Laser Treatment Now Available at Belladri

Belladri brings award-winning PicoWay® technology to downtown St. Petersburg

ST. PETERSBURG, FL, UNITED STATES, April 25, 2026 /EINPresswire.com/ -- [Belladri](#) is proud to announce the addition of the [PicoWay®](#) laser system by Candela to its growing menu of advanced aesthetic treatments. Named the 2022 Aesthetic Awards Device of the Year and featured on NBC's Today Show, PicoWay® represents a significant advancement in laser skin care — and Belladri is among the first med spas in St. Petersburg to offer it.

Meet the PicoWay® Laser

The PicoWay® system delivers high peak power and the shortest pulse durations available, creating a non-thermal, photoacoustic effect that transforms skin from the inside out. This innovative laser system can:

- Significantly improve acne scars and wrinkles with a series of quick, 15 to 20-minute treatments with low to no downtime
- Address a range of benign pigmented lesions, including melasma and sun damage, with flexibility in depth and spot size
- Treat a wide range of tattoos, including difficult-to-treat blue and green ink

The moment this device became available, I knew it belonged in our practice."

Founder of Belladri Med Spa

PicoWay® Resolve and PicoWay® Resolve Fusion are fractional, split-beam treatments available on the PicoWay® system, offering a popular, low-downtime option for addressing acne scars, wrinkles, and benign pigmented lesions.

Unlike IPL treatments, which employ a broader range of

wavelengths, PicoWay® utilizes three distinct energy wavelengths to stimulate collagen at a deeper level and is safe for a wider range of skin types.

"I am so excited to bring the PicoWay® system to our patients here in St. Petersburg," said Adrianna Leszczynska, MBA, APRN, FNP, founder of Belladri. "The moment this device became available, I knew it belonged in our practice. It is a major step forward in treating skin imperfections safely and effectively, and it aligns perfectly with our commitment to innovative, [medically grounded care](#)."

About Belladri

Belladri is a boutique medical spa located in downtown St. Petersburg, Florida, founded and led by Adrianna Leszczynska, MBA, APRN, FNP. A board-certified nurse practitioner and advanced wound care specialist with over a decade of clinical experience, Adrianna brings a medically grounded, results-driven approach to aesthetic medicine. Belladri specializes in advanced treatments including neuromodulators, dermal fillers, PDO threads, RF microneedling, laser skin care, IV infusion therapy, and weight loss programs, all delivered in an elegant, personalized environment. At Belladri, every treatment is designed to enhance your natural beauty with precision, integrity, and care.
