Unveils Bold Vision to Deliver 50 Million Units by 2045—Alongside “Donsa Phambili” Initiative to Uplift Communities

Atlas Civils, a leading supplier and manufacturer of refurbished and purpose-built shipping containers and structures, has announced an ambitious long-term vision to supply 50 million units by 2045, while simultaneously launching its community upliftment drive, “Donsa Phambili”—a forward-focused initiative aimed at creating real, lasting impact across Africa and beyond.

This dual commitment reflects Atlas Civils’ core belief: that infrastructure is not just about building — it’s about enabling opportunity, dignity, and growth.

## A Vision for Scalable Infrastructure

With demand for affordable, modular infrastructure continuing to rise across sectors—including housing, small business, construction, mining, and agriculture—Atlas Civils has positioned itself at the forefront of scalable, fast-deployment solutions.

The company’s goal to deliver 50 million units by 2045 is driven by:

- The need for rapid urban and rural infrastructure expansion
- Increasing demand for cost-effective housing and business spaces
- The versatility and durability of shipping container solutions
- A commitment to innovation in modular steel construction

Creche Receives New Container Facility From Atlas Civils

“Our mission is not just about numbers,” said a spokesperson for Atlas Civils. “It’s about creating access—access to housing, access to business opportunities, and access to infrastructure where it’s needed most.”

### Introducing “Donsa Phambili” — Driving Progress Forward

Running parallel to this growth strategy is Donsa Phambili, meaning “push forward” or “move ahead”—a social impact initiative designed to uplift individuals, families, and communities through direct support and opportunity creation.

As part of this drive, Atlas Civils has committed to:

- Donating 200 fully functional units over the next five years
- Launching a public nomination platform where communities can identify deserving recipients
- Supporting small businesses with container-based infrastructure to help them start and grow
- Partnering with stakeholders to expand the reach and impact of the initiative

“Donsa Phambili is about taking action where it matters most,” the company added. “While we scale our operations globally, we are equally focused on ensuring that growth translates into meaningful change for real people.”

### Bridging Commercial Growth with Social Responsibility

Atlas Civils’ approach bridges commercial scalability with purpose-driven impact. Every unit supplied contributes not only to economic development but also to a broader vision of inclusive growth.

From container homes and site offices to retail spaces, storage units, modular buildings and business units, Atlas Civils continues to deliver solutions that are:

- Durable and weather-resistant
- Distributed throughout Africa
- Ready-to-use with integrated electrical and plumbing systems

### Looking Ahead

As Atlas Civils works toward its 2045 milestone, the company invites partners, investors, and communities to be part of this journey—whether through collaboration, investment, or participation in the Donsa Phambili initiative.

“This is more than a business target—it’s a real opportunity,” the spokesperson concluded. “We’re building the future, while making sure no one is left behind.”
