

Benevis' Annual Sharing Smiles Day Provides Free Dental Care to Underserved Children and Families Across 10 States

ATLANTA, GA, UNITED STATES, April 28, 2026 /EINPresswire.com/ -- Everyone deserves routine, comprehensive oral healthcare, but for nearly 70 million adults and close to eight million children who lack dental coverage, there's nothing "routine" about accessing care. That's why [Benevis](#), a mission-driven leader in pediatric oral healthcare, is proud to announce its 11th annual [Sharing Smiles Day](#), an initiative dedicated to opening doors for children and families who face barriers to routine dental services.

On May 31, Benevis and its family of local brands are stepping up to provide children and adults without Medicaid or private dental insurance with dental exams, limited emergency care, extractions, restorative treatments and, in limited cases, dental cleanings at no cost. As oral health plays a larger role in systemic health, the importance of Sharing Smiles Day reaches beyond a single day of service. It's about setting people up for healthier lifestyles and preventing more costly, serious care down the line. Space is limited, and families are encouraged to register early at www.SharingSmilesDay.com.

“

Sharing Smiles Day is a vital day of action that addresses the systemic gap for millions of families that don't have dental insurance.”

*Roderick Place, CEO of
Benevis*

“Sharing Smiles Day is a vital day of action that addresses the systemic gap for millions of families that don't have dental insurance,” Roderick Place, CEO of Benevis, said. “Providing this service at no cost is our way of giving access to care for families who face obstacles to dental health. This initiative embodies our dedication to creating lasting dental ‘homes’ where our teams can focus on what

matters most: Improving the long-term health and well-being of every patient we serve.”

Over the last decade, Sharing Smiles Day has successfully delivered essential care to more than 3,800 patients. Practices in Benevis' family of brands across Connecticut, Georgia, Kentucky, Louisiana, Maryland, Massachusetts, Mississippi, South Carolina, Texas and Virginia are volunteering their time to care for the patients who are most likely to slip through the cracks. In addition to immediate treatment, volunteers that day will also empower families with educational resources to build lifelong healthy habits. Plus, this year's Sharing Smiles Day coincides with National Smile Day, turning a day of celebration into a day of action.

Benevis specializes in serving patients on Medicaid, managing 1.3 million visits a year. It's uniquely positioned to care for families that most often struggle to access care or slip through the cracks. The organization and its family of more than 100 brands are committed to removing these hurdles that stand between children and a healthy smile.
