ACEI GPA Calculator

Around the world, grading systems vary significantly with no universal GPA standard. For universities, employers, and licensing bodies reviewing international applicants, comparing academic achievements across countries can be time-consuming, inconsistent, and difficult to scale.

“

The challenge isn't just converting grades—it's understanding what they represent within each educational system”

*Alan Saidi, Senior VP, COO & CTO at ACEI*

As institutions and organizations navigate increasingly complex global education systems, the demand for consistent academic comparison tools has never been greater.

The ACEI GPA Calculator© introduces a smarter, more standardized approach to international GPA conversion by combining real-time processing with more than 30 years of

credential evaluation expertise.

Key Capabilities Include:

- Instant GPA conversion across global grading systems
- OCR-enabled document processing
- Multi-system outputs (U.S., ECTS, and more)
- Downloadable, shareable reports
- Standardized, defensible methodology

Subscription users also receive a bonus access to the Global Credential Integrity Index™ (GCII), a built-in reference resource providing deeper insight into international education systems, documentation standards, equivalency guidance, and risk indicators.

“We designed the GPA Calculator to bring consistency and structure to a process that has historically relied on manual interpretation. This is about enabling better, faster, and more informed decisions at scale,” said Alan Saidi, Senior Vice President, Chief Operating Officer & Chief Technical Officer at ACEI.

The launch of the ACEI GPA Calculator© reflects ACEI's continued investment in technology solutions that support modern admissions, hiring, and credential evaluation workflows.

The ACEI GPA Calculator© is now available.
