

Seasonal Checklist Supports Effective Landscape Care Year-Round

GREENSBORO, NC, UNITED STATES, April 29, 2026 /EINPresswire.com/ -- [New Garden Landscaping & Nursery Inc](#) has introduced a structured seasonal checklist designed to guide property owners through consistent landscape care across changing conditions. The checklist reflects practical steps aligned with plant health, soil conditions, and long-term landscape performance, particularly for clients seeking [Landscape Maintenance Services in Greensboro, NC](#).

The seasonal framework begins in spring with soil preparation, pruning, and plant assessments to support new growth. Summer maintenance focuses on irrigation efficiency, pest monitoring, and preserving plant health during high temperatures. In the fall, attention shifts to leaf management, root strengthening, and preparing plantings for colder months. Winter tasks include structural pruning and evaluating drainage systems to prevent damage. These steps align with the company's approach to maintaining landscapes that mature well over time and remain structurally sound.

New Garden Landscaping & Nursery Inc integrates these seasonal practices into its ongoing service model, which includes horticultural care, pruning informed by plant species, and irrigation system monitoring. Their maintenance teams work to preserve both the visual intent and biological health of each property. This checklist also supports clients exploring [Landscape Maintenance Services Winston-Salem, NC](#), offering a consistent approach across service areas without altering regional requirements.

For more information about New Garden Landscaping & Nursery Inc's landscape maintenance services, contact their office at (336) 919-2494.
