

Oxagile to Join FinovateSpring 2026 with Focus on Fintech Engineering

The company will attend FinovateSpring 2026 to discuss major fintech challenges and share its approach to building secure and scalable payment solutions.

NEW YORK, NY, UNITED STATES, April 30, 2026 /EINPresswire.com/ -- [Oxagile](#), a renowned international provider of custom software solutions, announces its participation in FinovateSpring 2026, one of the most popular annual events dedicated to innovation in the financial technology sector.

Oxagile to Join FinovateSpring 2026 with Focus on Fintech Engineering

The conference will take place on May 5–7 at the luxurious Sheraton San Diego Hotel and Marina and will bring together leaders of the fintech space, product engineering teams, and various technology providers who will explore the trends forming the future of digital financial services in the years to come.

Representing Oxagile at this year's event will be Charlie Horning, Senior Sales Executive, who will be meeting with attendees, the company's partners, and various industry professionals throughout the conference.

FinovateSpring has a strong reputation among professionals for its focus on real-world fintech innovations spanning from digital banking and cross-border payments to next-gen fraud prevention and improved customer experience. For Oxagile, the event is an outstanding opportunity to connect with organizations interested in building or modernizing their financial products.

For more than 20 years of its history, Oxagile has been working with fintech companies on a wide range of initiatives, including custom payment platforms, large-scale migrations of transaction processing systems, and customer-facing financial applications. The company's engineering teams specialize in building products that are not only scalable and secure, but also 100% ready for adaptation to evolving regulatory and market demands.

Oxagile continues to expand its capabilities in highly complex areas, such as multi-PSP payment orchestration, PSP integrations, live migrations, and user-centric product design. Businesses interested in building modern financial products can explore the company's approach to [payment app development services](#), which covers everything from scalable architecture design to API-based implementation and ongoing customer support.

By participating in this year's FinovateSpring, Oxagile hopes to expand its presence in the fintech space and build valuable new connections with companies looking for a practical, engineering-driven approach to product development backed by decades of hands-on experience.

Use the contact information below to learn more about Oxagile and its fintech expertise or reach out to book a meeting with Charlie Horning on either of the conference days.

About Oxagile

Oxagile is a custom software development company recognized for its deep expertise in AI-powered fintech and multi-platform video streaming solutions. Since 2005, Oxagile has delivered highly innovative, scalable software to clients across finance, retail, media, entertainment, and digital industries. These collaborations have helped the company's clients benefit from advanced optimization methods and artificial intelligence to streamline payment processing, content delivery, personalization, and operational efficiency.

With a solid track record working with major global brands, Oxagile combines deep fintech and video technology expertise with a strong understanding of modern cloud platforms, enabling its clients to stay at the forefront of financial and media ecosystems and offer top-quality user experiences.
