*Renaye James Healthcare Advisors®
Awarded a GSA Schedule, Expanding
Federal Access to High-Impact Healthcare
Transformation and Technical Assistance*

COLUMBIA, MD, UNITED STATES, April

30, 2026 /EINPresswire.com/ -- [Renaye James Healthcare Advisors® \(RJHA\)](#), a nationally recognized firm providing healthcare consulting, quality improvement, accreditation readiness, strategic planning, and technical assistance services, is now an approved vendor under the U.S. General Services Administration (GSA) Multiple Award Schedule (MAS). This milestone enables federal agencies to directly access RJHA's proven expertise through a streamlined, pre-competed contracting vehicle.

With this award, federal partners across the Department of Health and Human Services and its agencies, as well as other federal health-focused entities, can efficiently procure RJHA's services to support national initiatives in clinical quality, preventive care, and health system transformation.

RJHA brings deep expertise in working with safety-net providers, including health centers, health departments, and national organizations. The firm is known for delivering practical, implementation-focused technical assistance that translates complex regulatory and clinical requirements into actionable strategies that improve national health outcomes.

"This milestone reflects years of deliberate investment in building a firm that meets the highest standards of healthcare quality and accountability. Being awarded a GSA Schedule is not simply a procurement vehicle; it is confirmation that Renaye James Healthcare Advisors is qualified to serve the federal government at the highest level. This Schedule allows us to extend our vision, better process, better outcomes, and lasting quality, by making it easier for federal agencies to engage our team and improve health outcomes in communities nationwide."

~ Dr. Jenene R. Washington, MD, MBA, PMP, Founder and CEO, Renaye James Healthcare Advisors

RJHA's [core service areas](#) available through the GSA Schedule include:

- Clinical quality improvement, chronic disease management support, preventive services

workflows, and patient safety initiatives

- Practice transformation and operational excellence activities
- Accreditation/Recognition support and readiness, including PCMH, the Joint Commission, and HRSA compliance
- Data-driven, value-based care strategies and other scientific and technical consulting services
- Workforce development and leadership training through national technical assistance programs
