"Sea Glass" finds Candice at a new plateau in her life and music. Inspired by a lifetime of challenging musical adventures as well as the magic and demands of everyday life and family, Candice has crafted an album that observes life through a prism - looking through a kaleidoscope of sea glass colors with their own special glow. Much like an alchemist, she melds together her various influences and experiences to create music that is contemporary yet eternal.

Candice says: "We go through so much in life, we break, we shatter, our pieces tossed and tumbled by forces all around us, smoothing our edges, teaching us lessons. And though some pieces may be lost, most return to be changed, different, worn by time, and yet...brilliant treasures in who we have become..." "Sea Glass" is a journey across time and tides, and may be her most personal album to date.
