TACOMA, WA, UNITED STATES, May 4, 2026 /EINPresswire.com/ -- Millenia Medical Center, the advanced [medical spa](#) and wellness center that has rapidly become one of Tacoma's most trusted destinations for science-backed aesthetics and integrative medicine, is proud to announce its Official Ribbon Cutting Ceremony and Community Celebration, taking place on Thursday, May 7, 2026, from 4:00 PM to 8:00 PM at 4826 Tacoma Mall Blvd, Suite A, Tacoma, WA 98409.

The formal ribbon cutting ceremony, facilitated by the Tacoma Area Chamber of Commerce, will commence at 4:30 PM and is free and open to the public. The event serves as the practice's official ceremonial grand opening — a milestone celebration honoring six months of service to the Tacoma and Pierce County community since the clinic's doors first opened in November 2025.

From Startup to Tacoma's Most Trusted Med Spa — In Six Months

Since opening last fall, Millenia Medical Center has built an impressive foundation of patient trust and clinical excellence. The practice has served hundreds of Tacoma-area patients, earned the prestigious #1 Momentum Ranking among Tacoma medical spas for outstanding review performance and patient satisfaction, and established itself as the South Sound region's premier destination for non-surgical aesthetics, hormone optimization, and medically guided wellness.

"We opened our doors six months ago with a commitment to this community, and the response

has been humbling," said Mira Dostan, FNP-BC, Founder and Owner of Millenia Medical Center. "This ribbon cutting is our opportunity to say thank you — to our patients, our partners, and the Tacoma community that has supported us from the very beginning. We also want to welcome anyone who hasn't yet discovered us to come see what we've built."

A Celebration Six Months in the Making

The May 7 ceremony and celebration will offer guests an immersive look at the treatments and technology that have made Millenia Medical Center a standout practice in the South Sound. The evening features live demonstrations led by three of the most respected names in medical aesthetics:
