"I bought an apartment and hired Roco Build for a complete interior renovation. They painted the entire apartment, replaced the flooring, and repaired and updated the kitchen cabinets. Reza and his team were very professional, organized, and completed the job on time. The quality of the work was excellent and I am really happy with the result. I would definitely recommend Roco Build to anyone who needs honest and skilled renovation work."

"As a project manager, we strive to work with the best sub trades in the restoration industry. Steve and Reza and his team have been top-notch and have gone over and above on every project we have worked together on. Their quality of work is exceptional and attention to detail is extensive. I would highly recommend them for any and all projects that you may require a contractor for."

"Having worked with numerous contractors in the past, I've seen it all – some deliver quality work but lack in staying on time, while others stick to the schedule but deviate from the agreed budget. My experience with Reza and Roco Construction stood out as exceptional and beyond my previous experiences.

Reza's approach was transparent and communicative. He provided clear information from the start, setting realistic expectations. This level of upfront honesty was appreciated and set a great tone for the project.

They were consistent in their progress, finishing the work on schedule without compromising on quality. It was a relief to see a contractor stick to the timeline efficiently.

On top of that, they stuck to the agreed-upon budget, which was refreshing. They communicated any potential changes, ensuring no surprises or hidden costs. This integrity in handling finances further solidified my trust in their services.

The quality of their craftsmanship was great. The attention to detail in their work were evident in the finished project(s). I am thoroughly impressed and satisfied with the outcome(s).

Roco Construction is a team I would highly recommend! Their blend of timely completion, staying on budget, and craftsmanship is awesome! I will definitely consider them for future projects and recommend them to others."
