

Medical Clinic of Houston Celebrates Successful Transition to Roche Cobas Pro System, Enhancing Laboratory Services

HOUSTON, TX, UNITED STATES, May 5, 2026 /EINPresswire.com/ -- Medical Clinic of Houston, L.L.P. (MCH), a leading independent, physician owned multi-specialty group practice, is excited to announce the successful completion of its transition to the Roche Cobas Pro system with Cobas 8100 automation. This cutting-edge upgrade significantly enhances MCH's laboratory services, enabling improved workflow efficiency, superior analytical quality, and faster turnaround times for patient results.

With the implementation of this advanced technology, MCH is further reinforcing its commitment to delivering timely and reliable results for both patients and healthcare providers. The Roche Cobas Pro system is recognized for its precision and automation capabilities, which

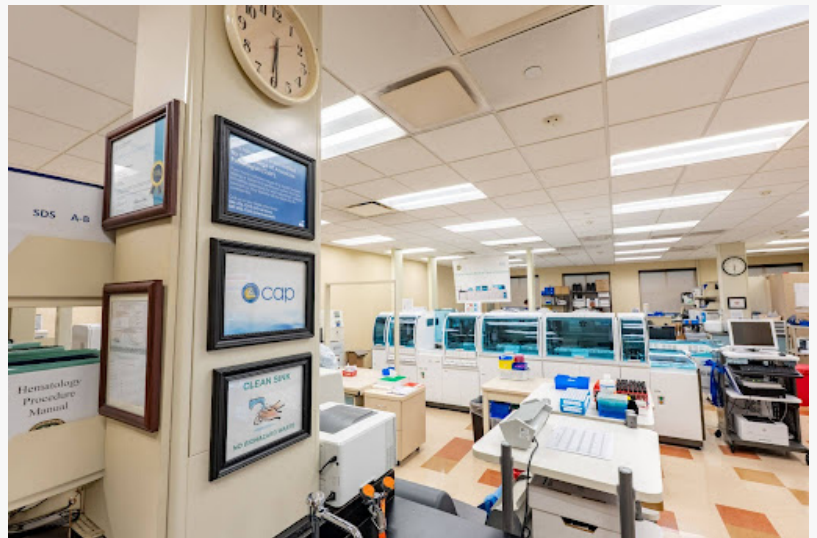

streamline laboratory processes and reduce the time it takes to provide critical diagnostic information. This transition is part of MCH's ongoing efforts to integrate the latest advancements in medical technology to improve patient care and overall operational efficiency.

MCH extends its heartfelt congratulations to the dedicated Laboratory team for their hard work and commitment to successfully implementing this system upgrade. Their efforts were instrumental in ensuring a smooth transition, which will have a lasting positive impact on patient care.

As an independent, multi-specialty physician group practice, MCH offers a comprehensive range of adult primary care and specialty services, with a strong emphasis on compassionate care and
