

Lov MedSpa Miami Establishes Consistent Five-Star Standard in Aventura and North Miami Beach Medical Spa Market

Multilingual, doctoral-led medical spa sets a consistent five-star standard across the saturated Aventura and North Miami Beach aesthetic medicine market.

MIAMI, FL, UNITED STATES, May 7, 2026 /EINPresswire.com/ -- Lov MedSpa Miami, the South Florida flagship of the multi-state Lov MedSpa group, is bringing doctoral-level clinical credentials and one of the most rigorously credentialed provider teams in South Florida to the North Miami Beach and Aventura aesthetic medicine corridor. The practice, located at 21010 W Dixie Hwy, sits directly between Aventura and North Miami Beach and serves as the primary medical spa destination for clients across Aventura, Sunny Isles Beach, Hallandale Beach, Bal Harbour, Surfside, Hollywood, Golden Beach, Ojus, Ives Estates, North Miami, Bay Harbor Islands, Miami Beach, Brickell, Coral Gables, and the greater Miami-Dade and Broward County region.

“

Our commitment is to high quality service and treatment outcomes. Clients appreciate that we are not pushy. We inform them and put the decision in their hands.”

Nicholas Smith

Florida to the North Miami Beach and Aventura aesthetic medicine corridor. The practice, located at 21010 W Dixie Hwy, sits directly between Aventura and North Miami Beach and serves as the primary medical spa destination for clients across Aventura, Sunny Isles Beach, Hallandale Beach, Bal Harbour, Surfside, Hollywood, Golden Beach, Ojus, Ives Estates, North Miami, Bay Harbor Islands, Miami Beach, Brickell, Coral Gables, and the greater Miami-Dade

The clinical team at Lov MedSpa Miami is led by Mark Ennett, PhD, CRNA — a doctoral-level Certified Registered Nurse Anesthetist and certified aesthetic injector. His advanced training in anesthesia, patient safety protocols, and facial anatomy informs the practice's precision-driven approach to injectables, regenerative therapies, and non-surgical procedures. Doctoral-credentialed lead injectors are exceptionally rare across the Aventura and North Miami Beach medspa landscape, where the category is dominated by registered nurses, physician assistants, and in many cases unlicensed practitioners operating outside meaningful clinical oversight. The decision to anchor the Miami location with a CRNA reflects the group's broader operating philosophy: rigorous clinical depth over high-volume throughput. For clients in Aventura, Sunny Isles, and Bal Harbour evaluating where to receive Botox, dermal fillers, PDO thread lifts, or PRF EZ Gel from a credentialed clinical provider, the credential gap between Lov MedSpa Miami and most surrounding practices is substantial and verifiable.

Andrea Herrera, Esthetician, leads the practice's facial and skin rejuvenation services. Her

expertise spans HydraFacial, Morpheus8 RF microneedling, chemical peels, dermaplaning, and customized facial protocols, with a working approach built around individualized skin analysis and treatment tailoring. Her name appears consistently across third-party client reviews citing thorough consultations, careful technique, and meticulous attention to skin response — a level of personalization that is uncommon in the volume-driven aesthetic clinics common throughout the Miami market.

Richard Diggs, Practice Manager, oversees daily operations and client experience at the Miami location. His name appears across the majority of public client reviews, frequently cited for warmth, professionalism, and consistent communication throughout the client journey. The Miami location's client care infrastructure is also notably multilingual, serving clients in English, Spanish, and additional languages — a meaningful operational differentiator in a region where the majority of residents speak a language other than English at home, and where most medspas in the Aventura and North Miami Beach corridor are not staffed to deliver consultations and post-treatment care in multiple languages with consistent fluency.

Founder Nicholas Smith, MBA describes the operating philosophy that distinguishes the Miami location from the broader South Florida medspa category. "Our commitment is to high quality service and treatment outcomes," Smith said. "Clients appreciate that we are not pushy and don't try to sell them treatments. We inform them and put the decision in their hands."

This philosophy is operationalized through a structured consultation process. Clients at Lov MedSpa Miami are evaluated by the senior clinical team before any treatment is scheduled, and the practice's standard protocol is to walk clients through the full treatment landscape — including alternatives, contraindications, and realistic outcome expectations — before any commitment is made. The practice has earned 175 five-star Google reviews over its operating history, an exceptionally consistent third-party feedback profile that distinguishes the practice from the typical review patterns seen across the Aventura, Sunny Isles, and North Miami Beach medspa market. Recurring themes in client feedback include thorough consultations, detailed

DEFINING TIMELESS BEAUTY

The clinical team at Lov MedSpa West Farms in Farmington, Connecticut, led by doctoral and master's-level credentialed providers serving Hartford County.

pre-treatment education, careful injection technique, and pressure-free decision-making. Clients regularly travel from outside the immediate Miami metropolitan area — including from neighboring states — specifically to access the practice.

The treatment menu at Lov MedSpa Miami spans the full range of contemporary medical aesthetics. Injectable services include Botox, Xeomin, and Daxxify for dynamic wrinkle treatment, masseter Botox for jawline contouring, trapezius Botox for shoulder line refinement, and a comprehensive dermal filler menu covering lip filler, cheek filler, jawline filler, and tear trough filler. The practice also offers Sculptra and RADIESSE for collagen stimulation and long-term volume restoration, along with filler dissolver services for clients seeking correction or reversal. Advanced regenerative therapies include PRP and PRF treatments, under-eye PRF EZ Gel, full face PRF rejuvenation, and mesotherapy for double chin reduction. Laser and skin resurfacing services are anchored by fractional CO2 laser treatment for acne scars, sun damage, fine lines, and full-face resurfacing, alongside Morpheus8 RF microneedling for skin tightening and texture refinement, and Rejuran for cellular-level skin rejuvenation. Facial treatments include HydraFacial, classic facials, dermaplaning, chemical peels, and traditional microneedling. Body contouring services include liquid BBL for non-surgical sculpting and Aveli cellulite treatment. The practice additionally offers PDO thread lifts for non-surgical facial and neck tightening, making it one of the few providers in the Aventura and North Miami Beach corridor performing this sophisticated procedure under doctoral-level clinical oversight.

Lov MedSpa operates five locations across three states, including Manhattan, Brooklyn, Staten Island, Aventura, and Farmington. The multi-location operating model gives the Miami team access to refined clinical protocols, rigorous provider training standards, and patient experience frameworks developed across a far broader and more diverse client base than any single-location practice in the South Florida market can match.

The North Miami Beach and Aventura aesthetic corridor is one of the most saturated medspa markets in the United States, with a density of practices ranging from board-certified plastic surgery groups to unlicensed independent operators. Within that landscape, Lov MedSpa Miami has differentiated through measurable, verifiable factors: doctoral-level lead injector credentials, a multilingual and deeply staffed client care team, one of the most comprehensive single-location treatment menus in South Florida, integration with a multi-state operational platform, and a sustained track record of 175 five-star Google reviews. For clients in Aventura, Sunny Isles Beach, Bal Harbour, Surfside, and the broader North Miami Beach area evaluating where to receive aesthetic care, the practice represents a credentialed, comprehensive, and consistently reviewed alternative to the high-volume, low-oversight clinics common across the corridor.
