John Thiesfeld and Chris Wilkinson of The Service Companies will host a special session on Monday, May 11, at 2:40 p.m. PT, exploring the benefits of outsourced housekeeping for timeshare properties.

The Service Companies' presentation will explore how specialized managed staffing provides scalable housekeeping solutions and access to modern cleaning technologies that many in-house departments struggle to

maintain. By partnering with hospitality firms with a track record of elevating timeshare operations, properties can ensure better compliance and consistent service quality.

"Owner and guest satisfaction in the timeshare industry start with a property that is consistently guest-ready," said Brian Coyne, Chief Executive Officer of The Service Companies. "We show timeshare operators how managed services can actually drive profit by removing the daily distractions of labor management. This allows property leaders to put their energy back into owner engagement and the guest experience. We are proud to be ARDA members and to support the future of vacation ownership."

"Outsourcing isn't just about filling a schedule; it's about bringing a reliable system to your property," said Wilkinson, Senior Vice President of Sales at The Service Companies. "At ARDA, our goal is to show operators how a managed partnership takes the daily staffing headache off their plate so they can focus on their owners and guests."
