

With millions of unoccupied homes throughout the United States many home owners have no idea how to protect the homes

Fast Guard Service Launches On-Demand Vacant Property Security Solutions Across South Florida and High-Risk Vacancy Markets Nationwide

MIAMI, FL, UNITED STATES, June 5, 2026

/EINPresswire.com/ -- As vacant homes continue to rise across South Florida and other high-vacancy markets throughout the United States, property owners are facing a growing threat: break-ins, vandalism, squatters, flooding, fires, mold, and costly property damage that can spiral into devastating financial losses.

Fast Guard Service is now offering an affordable and scalable solution specifically designed to protect vacant homes, rental properties, REO properties, investment homes, and commercial vacancies before minor issues turn into catastrophic losses.

“An empty property can become a target overnight,” said a spokesperson for Fast Guard Service. “Broken windows, forced entry, copper theft, vandalism, water leaks, and even unauthorized squatters can quickly create tens of thousands — sometimes hundreds of thousands — of dollars in damages and legal expenses.”

Vacant properties often sit unattended while owners wait for a sale, renovation, or new tenants. During that time, criminals and trespassers can exploit the property, creating serious consequences including:

- Broken windows and forced entry
- Vandalism and destruction of interiors
- Fires caused by trespassers or illegal activity
