

éS introduces the Accel Kevlar® for Accel Day

To celebrate Accel Day, the Accel Kevlar is limited to 300 individually numbered pairs.

LOS ANGELES, CA, UNITED STATES, May 19, 2026

/EINPresswire.com/ -- Every year on May 19, 5/19 becomes éS - the fifth and nineteenth letters of the alphabet - a simple idea that grew into a moment to celebrate the [Accel](#) and what it represents.

Within this run, two numbers carry special meaning. The skaters who receive pair 5 and pair 19 will be invited into a one-of-a-kind Accel Day experience: a private video call with the éS team, alongside a rare, one-off piece from the éS archive.

These experiences can not be bought - they exist solely to honour Accel Day.

We proudly present to you the Accel Kevlar.

BUILT WITH DuPont™ Kevlar®

For over 50 years, DuPont™ Kevlar® has been trusted in products where durability and reliability matter most. Lightweight yet incredibly strong, Kevlar® fiber is used here to reinforce the traditional Accel - helping the shoe hold up to repeated impact and abrasion without adding unnecessary weight or stiffness.

By integrating Kevlar® fiber into the construction, we're able to support longer-lasting wear whilst preserving the comfort, flexibility, and boardfeel skateboarders expect from the Accel. It's not about changing how the shoe skates - it's about helping it do what you need it to do... for longer.
