DOVER, DE, UNITED STATES, May 19, 2026 /EINPresswire.com/ -- ProSat Networks 1-844-799-0258, a professional Starlink installation and IT network services company, increased support across Delaware offering Starlink LEO satellite with advanced wireless networking solutions. This includes Starlink installations coupled with custom Wi-Fi network designs, security camera systems, access control (security), low-voltage data cabling, and managed IT support services for residential, commercial businesses and maritime customers in Delaware.

Starlink Installation and WiFi Networks in Delaware

“

Starlink and wireless network technologies allow customers in underserved areas to gain access to modern connectivity much faster.”

Spokesperson, ProSat Networks

"Delaware has embraced LEO satellite technologies starting with Starlink, increasing demand for better, faster wireless networks across the first state" stated a spokesperson from ProSat Networks.

According to official tracking data from the Delaware Broadband Office and the federal Broadband Equity Access and Deployment (BEAD) program, there are over 4,700 unserved and underserved locations across Delaware that lack access to reliable, high-speed internet. Laying fiber-optic cables to isolated homes or farms is

incredibly expensive.
