

Six-Figure Chicks Houston Volumes 1 & 2 Now Available as Audiobooks — Narrated in Each Author's Own Voice

In an era of AI-generated narration, Houston's women entrepreneurs choose authenticity — telling their six-figure stories in their own words, their own voices

HOUSTON, TX, UNITED STATES, May 20, 2026 /EINPresswire.com/ -- [Six-Figure Chicks](#), the collaborative book series spotlighting women who have achieved six-figure success in business and leadership, today announced the audiobook release of its [Houston Volumes 1 and 2](#) on Audible and Amazon. The Houston editions join two other Six-Figure Chicks titles already available in audiobook format — Phoenix Volume 2 and Scottsdale Volume 1 — marking a significant expansion of the series into audio and underscoring a growing movement of women telling their entrepreneurial stories out loud, in their own voices. Houston Volume 3 is currently in production and will follow shortly.

What distinguishes these releases from virtually every other anthology on the market is a choice the Six-Figure Chicks team made deliberately: every chapter is narrated by the woman who lived it. At a moment when over 50,000 audiobook titles on Audible are now labeled "Narrated by: Virtual Voice" — AI-generated audio that can convert an ebook to audio in under an hour — the Six-Figure Chicks series takes a stand in the opposite direction. Each author stepped into a recording studio and read her own story, bringing a level of authenticity that no professional voice actor or algorithm can replicate.

That choice is rarer than it might seem. Multi-author anthologies where every contributor

narrates their own chapter are exceptionally uncommon on Audible, where industry standard practice — driven by cost, consistency, and the widely held belief that professional narrators outperform authors — means most anthologies, when they reach audio at all, are read by a single hired voice. The Six-Figure Chicks series breaks that mold entirely across all four current audiobook editions, making a format statement as much as a business one. For a series built on personal entrepreneurial stories, the decision was straightforward: the authors are the authenticity, and that cannot be outsourced.

"Hearing a woman describe the moment her business crossed six figures — in her own voice, with her own accent, her own emotion — is a completely different experience than reading it on a page or hearing it performed by someone else. That's the whole point." — Mel Carr, Founder of Six-Figure Chicks and Cloversy
