

How Companies Are Positioning Themselves in the Reverse Logistics Market

*The Business Research Company's
Reverse Logistics Global Market Report
2026 – Market Size, Trends, And Forecast
2026-2035*

LONDON, GREATER LONDON, UNITED KINGDOM, May 20, 2026
/EINPresswire.com/ -- The [reverse logistics market](#) is dominated by a mix of global logistics service providers and specialized returns management and supply chain solution companies.

Companies are focusing on advanced

returns processing systems, warehouse automation technologies, refurbishment and recycling solutions, and integrated tracking and inventory management platforms to strengthen market presence and maintain efficient and sustainable operational standards. Emphasis on cost optimization, sustainability and circular economy practices, and integration of digital supply chain management systems remains central to competitive positioning. Understanding the competitive landscape is essential for stakeholders seeking growth opportunities, technological innovation, and strategic partnerships within the rapidly evolving logistics and supply chain management sector.

Which Market Player Is Leading The Reverse Logistics Market?

•According to our research, Deutsche Post DHL Group led global sales in 2024 with a 2% market share. The supply chain and logistics division of the company, which is directly involved in the reverse logistics market, provides a wide range of returns management services, transportation and warehousing solutions, refurbishment and recycling services, and inventory management systems that support e-commerce, retail, and manufacturing environment.

Who Are The Major Players In The Reverse Logistics Market?

Major companies operating in the reverse logistics market are Deutsche Post DHL Group, United Parcel Service Inc., FedEx Corporation, Schenker AG, XPO Logistics Inc., Kuehne + Nagel International AG, C.H. Robinson Worldwide, CEVA Logistics AG, J.B. Hunt Transport Services Inc., Nippon Express Co. Ltd., Kintetsu World Express Inc., Dachser SE, Expeditors International of

Washington Inc., Yusen Logistics Co. Ltd., Agility Logistics, DSV Panalpina A/S, Ryder System Inc., Hellmann Worldwide Logistics, Echo Global Logistics Inc., ArcBest Corporation, Kerry Logistics Network Limited, Landstar System Inc., Safexpress Pvt. Ltd.

How Concentrated Is The Reverse Logistics Market?

•The market is fairly fragmented, with the top 10 players accounting for 13% of total market revenue in 2024. This level of concentration reflects moderate technological and operational entry barriers, driven by complex returns handling processes, compliance with environmental and recycling regulations, diverse product categories, and the need for reliability and efficiency in logistics and supply chain management environments. Leading players such as Deutsche Post DHL Group, United Parcel Service Inc., FedEx Corporation, Schenker AG, XPO Logistics Inc., Kuehne + Nagel International AG, C.H. Robinson Worldwide, CEVA Logistics AG, J.B. Hunt Transport Services Inc., and Nippon Express Co. Ltd. hold notable market shares through extensive distribution networks, integrated service portfolios, advanced tracking systems, and strong relationships with e-commerce, retail, and industrial clients. As demand for efficient returns management, cost optimization, faster processing cycles, and circular supply chain integration increases, service innovation, digitalization, and expansion of reverse logistics capabilities are expected to strengthen the competitive positioning of these leading companies in the market.

•Leading companies include:

- oDeutsche Post DHL Group (2%)
