

SECRET ATLAS UNVEILS SIX NEW SINGLE CABINS ABOARD MV FREYA

NEW YORK, NY, UNITED STATES, May 21, 2026 /EINPresswire.com/ -- Expedition Micro Cruise specialist [Secret Atlas](#) has announced a redesign of its flagship vessel, MV Freya, now featuring six dedicated single cabins for independent explorers.

By reconfiguring MV Freya, Secret Atlas offers half of its guest capacity to solo travelers without any additional costs or single supplements. The new layout includes four Classic Single cabins, allowing six out of 12 passengers the luxury of their own private space.

“We’ve seen a fundamental shift in how people want to explore the polar regions,” said Michele D’Agostino, Co-Founder of Secret Atlas. “Solo travel on an Arctic expedition is about sharing those experiences with a group of like-minded individuals and to feel part of a small expedition team. By dedicating half of MV Freya to single occupancy, we’re creating a space where independent adventurers can enjoy the intimacy of a 12-person expedition while having a private space to relax at the end of the day.”

Each of the six new cabins features a spacious en-suite, providing a comfortable "home away from home" after a day of Zodiac and on-land excursions. Traveling with a

small group of just 12 like-minded explorers fosters a natural community, creating the ideal setting for a solo traveler. Whether spotting polar bears on the pack ice or sharing stories from the day over dinner, guests connect with fellow travellers in a safe, intimate environment.

Secret Atlas has a range of Expedition Micro Cruises available for solo travelers to the Arctic this summer including a 10-day [Svalbard Summer Micro Cruise](#) departing in June, July and August.

Travelers looking to explore both Greenland and Svalbard in one journey can explore the [Northeast Greenland National Park Micro Cruise](#) itinerary.
