The hidden ride charges are the main reasons why consumers criticise the airport transfers. The traditional taxi and ride-hailing ecosystem has long been associated with challenges. The app, available on Android via the Google Play Store & [Apple Store](#), offers fully digital ride-hailing. You can get the best travel opportunities across Toronto and Mississauga. Other areas they cover include Brampton, Vaughan, and the surrounding regions.

It provides real-time driver tracking. One can get the benefits of flight monitoring and pre-arranged pickup options. The options are available at both Terminal 1 and Terminal 3. The app also integrates features like driver tracking and in-app communication. Real-time driver tracking and automated flight monitoring are benefits. Other features include vehicle assignment details and pre-arranged pickup coordination.
