

PCC Secure Earns SHRM Recertification Provider Status, Expanding PDC Access for HR Professionals

HR professionals holding SHRM-CP or SHRM-SCP credentials can now earn recertification credit through PCC Secure's pre-approved, on-demand training catalog

NEW YORK, NY, UNITED STATES, May 27, 2026 /EINPresswire.com/ -- PCC Secure announced today that it has been recognized by the Society for Human Resource Management (SHRM) as an Approved Recertification Provider, authorizing its library of on-demand online training programs to offer Professional Development Credits (PDCs) toward SHRM-CP and SHRM-SCP recertification. SHRM-CP and SHRM-SCP holders can now apply PCC Secure's online training directly toward their recertification requirements. Each approved program aligns with the SHRM Body of Applied Skills and Knowledge (SHRM BASK) and is pre-approved for credit, giving HR professionals a verified path to recertification through training with direct organizational applications.

This recognition by SHRM gives HR professionals a meaningful way to advance their credentials while building skills their organizations genuinely need.”

*Sal Lifrieri, President and CEO
of PCC Secure*

Twelve programs in PCC Secure's on-demand catalog are approved for PDC credit, covering workplace violence and active shooter preparedness, threat assessment, suspect recognition, and other critical areas of concern for organizations in the public and private sectors. Upon completing a qualifying course, participants receive a certificate of completion from PCC Secure that confirms their credit eligibility and streamlines the recertification documentation process.

Sal Lifrieri, President and CEO of PCC Secure, stated, “Security and human resources have never been more intertwined. This recognition by SHRM reflects that reality and gives HR professionals a meaningful way to advance their credentials while building skills their organizations genuinely need.”

This recognition follows PCC Secure's designation as an ASIS International Preferred CPE Provider, further establishing the company as a verified professional development resource across the security industry.
