

# From Paper to Platform: Altek Business Systems Modernizes Document Workflows Without Disrupting Operations

---

TELFORD, PA, UNITED STATES, May 27, 2026 /EINPresswire.com/ -- Altek Business Systems, a regional leader in business technology, is launching a strategic initiative to help organizations transition "From Paper to Platform." This initiative focuses on modernizing document workflows while ensuring daily operations remain uninterrupted and secure for businesses across Eastern Pennsylvania and Southern New Jersey.

As regional business landscapes demand higher efficiency, the shift toward secure, cloud-based digital workflows has become a modern imperative. Altek's document management experts are bridging the gap between physical paper and scalable digital platforms, helping local companies eliminate the bottlenecks associated with traditional filing.

"We provide fast, personalized, and effective service that addresses the unique challenges of local business owners," said Scott Flaherty, President of Altek Business Systems. "Our goal is to ensure that as companies evolve, their technology supports growth rather than hindering it. By prioritizing robust cybersecurity and cloud flexibility, we ensure our clients' data is not just accessible, but impenetrable."

Altek's modernized workflow strategy integrates four core service pillars:

- **Cloud-Based Document Management Systems (DMS):** Streamlining the transition from physical storage to secure, accessible-anywhere electronic filing.
- **Cybersecurity Protocols:** Implementing end-to-end encryption, multi-factor authentication, and proactive threat monitoring to protect sensitive business intelligence.
- **Optimized Print & Digital Technology:** Upgrading and managing hardware to align with modern, high-speed digital workflows and remote cloud printing capabilities.
- **Secure Managed IT & Compliance:** Implementing a Compliance-as-a-Service (CaaS) model specifically designed to safeguard businesses in highly regulated industries against modern cyber threats.

By maintaining a strong physical presence in Telford, PA (Headquarters), Lehigh Valley, PA, and Cherry Hill, NJ, Altek ensures that clients receive hands-on, local support. This regional focus allows Altek to act as a true partner in digital transformation, providing the reliability of a local team with the technical capabilities of a national leader.
