

# Typing Curriculum Now Available for Big Spring ISD

*Keyboarding program helps students build typing confidence and foundational computer skills*

BIG SPRING, NV, UNITED STATES, May 29, 2026 /EINPresswire.com/ -- eReflect Inc. announced that its keyboarding and typing curriculum platform, Typesy, is now available for use within Big Spring Independent School District under the district's Career & Technical Education & Supplemental Instructional Supplies & Equipment purchasing category.

Typing and keyboarding remain important classroom skills. Building confidence with technology helps students participate more effectively and work more productively in digital learning environments."

*Rick Mesias, Sales Director at eReflect*

As classrooms continue relying on digital learning tools, typing skills are becoming increasingly important for students completing assignments, participating in online activities, and communicating through technology-based platforms. Schools are increasingly looking for typing software that helps students become comfortable using computers in academic settings.

[Typesy for Big Spring ISD](#) is first and foremost a K-12

educational program. It provides structured keyboarding instruction designed to help students improve typing accuracy, typing speed, and overall confidence using classroom technology. Through guided lessons and interactive practice exercises, students can build keyboard familiarity while progressing at their own pace.

The platform also includes reporting tools that allow educators to monitor keyboarding development and identify areas where additional typing practice may be beneficial. Teachers can integrate typing instruction into classroom routines while supporting broader student technology skills and digital readiness.

Beyond keyboarding instruction, Typesy helps schools support student technology skills and digital fluency through guided activities designed specifically for K-12 classrooms. While homeschool and individual plans are available, Typesy's primary focus is K-12 education.

Teachers and administrators interested in learning more about Typesy's typing curriculum for Big Spring ISD can visit: <https://www.typesy.com/bigspringisd/>

## ABOUT EREFLECT

eReflect is an education technology company dedicated to improving literacy and learning outcomes through innovative digital tools. Its flagship products include Typesy, a comprehensive keyboarding and digital literacy platform used by schools and homeschool environments worldwide, and Wordela, a vocabulary learning system powered by adaptive spaced repetition technology designed to support long-term retention and language development.
