ASAKUSA, TAITO-KU, TOKYO, JAPAN,
June 5, 2026 /EINPresswire.com/ --
From the fantasy RPG "Metaphor: ReFantazio," Hulkenberg joins the Premium Masterline series.

This 1/4 scale statue is based on Hulkenberg's character artwork. Depicting the Roussainte knight with her massive poleaxe, the statue recreates her silhouette, costume details, and color scheme in three-dimensional form.

Premium Masterline Metaphor: ReFantazio
Hulkenberg

The statue features Hulkenberg gazing into the distance, with details including her red hair, long ears, breastplate, and the emblem of the United Kingdom of Echronia on her left shoulder.

The base design incorporates imagery inspired by the Regalith Grand Cathedral and the Knight Archetype, reflecting key elements associated with the character.

The statue includes swappable parts that allow for different display options. An alternate head looking straight ahead and a right arm posed with the poleaxe behind her back are included.

The DX Bonus Version also includes an additional right arm part posed with her hand on her hip.
