Technologies Strengthens India's
Cleanroom & Biosafety Infrastructure
with Advanced Laboratory Solutions

Ghaziabad, Uttar Pradesh – AirBio
Technologies Private Limited, a rapidly
growing cleanroom and laboratory
equipment manufacturer based in
Ghaziabad, is emerging as a trusted
name in biosafety and contamination-
control solutions across India.

Established in 2023, AirBio specializes in manufacturing high-performance laboratory and cleanroom equipment including Biosafety Cabinets, Laminar Airflow Systems, Fume Hoods, Pass Boxes, Air Showers, Dispensing Booths, PCR Workstations, and modular cleanroom solutions. The company focuses on delivering reliable, precision-engineered systems designed for pharmaceutical, biotechnology, healthcare, research, and industrial applications.

With a strong commitment to innovation, product quality, and customer-centric engineering, AirBio Technologies aims to support laboratories and controlled environments with internationally aligned safety and performance standards.

“Our mission is to provide advanced contamination-control and biosafety solutions that help laboratories and healthcare facilities maintain the highest standards of safety, efficiency, and compliance,” said a spokesperson from AirBio Technologies.

Operating from Sahibabad Industrial Area, Ghaziabad, the company has steadily expanded its
