AMERICAN CONFERENCE *of* CANTORS

Virtual Tikkuns are custom-created using unique Torah scrolls to provide personalized Torah learning experiences for clergy, teachers, and students to ensure the continuity of Jewish experience and peoplehood – L'dor v'dor.

Cantors and Jewish educators who are time and resource constrained use Virtual Tikkun to provide deep-textured, high-quality personalized teaching at scale. Integrating a powerful Torah teaching and learning environment with images of their unique, handwritten Torah Scroll(s), Virtual Tikkun empowers them to:

- > Provide personalized 1:1 teaching, mentoring and attention at scale
- > Create in-app recordings that can be shared with students as they learn specific aliyot, and with the community at large in the the Resource Library
- > Provide context-specific feedback and resources at every step of the Torah learning process
- > Track and manage student progress – aliya-by-aliya, verse-by-verse

We will be onsite at the ACC-GTM to demonstrate how Virtual Tikkun fits comfortably into today's digital lifestyles for B'nai Mitzvah students and seasoned Torah readers. We will be highlighting the new capabilities of Virtual Tikkun Audio and the Resource Library, as well as the other existing features of Virtual Tikkun that streamline the teaching process for clergy and educators, including:

- > Intuitive learning experiences with task-based Torah journeys
- > Personalized learning using bookmarking and multiple learning styles
- > Collaborative learning using data-rich learning tools
