"We are extremely honored. This award reflects something that deeply matters — changing lives and helping people build stronger futures," said Frank Hayes, president of Hayes & Associates.

One of Hayes's notable achievements is the launch of Hayes Smart Start: Financial Literacy for Small Business Owners, an online, 10-week course introduced by the firm in 2025.

"The program addresses a real need in our community. When small business owners strengthen financial know-how, they can make more sound decisions for long-term success," said Hayes, who shared that more than 60 business owners have completed the course so far.

The firm also regularly does civic engagement work through Hayes Cares, the nonprofit organization it formed in 2014.
