

# Evolution Moving Company Recognized as a Top San Antonio Mover in Independent 2026 Rankings

*The San Antonio-based mover holds a 4.7-star independent rating with 97% positive reviews, a 96% referral rate, and a 1% damage claim rate.*

SAN ANTONIO, TX, UNITED STATES,  
June 1, 2026 /EINPresswire.com/ --

Evolution Moving Company, a family-owned [moving company in San Antonio TX](#), has been recognized as a

top San Antonio mover in independent 2026 industry reviews and ratings. The recognition reflects a reputation built over more than a decade of local work, and it places Evolution among the Alamo City moving companies most consistently praised by customers and independent review platforms alike. The recognition is grounded in numbers that customers and reviewers can verify for themselves. On the independent moving resource moveBuddha, Evolution Moving Company holds a 4.7-star rating with roughly 97 percent positive reviews, a level of consistency that few moving companies maintain over hundreds of jobs. Closer to home, the company reports that 96 percent of new bookings come from referrals and repeat customers, and that it maintains a 1 percent damage claim rate across more than 3,100 customer surveys. For a company that has spent years earning the trust of San Antonio families, those figures speak more clearly than any slogan. Founded in San Antonio in 2014, Evolution Moving Company has grown into one of the Alamo City's most recognizable names for local moves. The company was started by two brothers and has remained family-owned as it expanded, building its reputation one move at a time across neighborhoods from Alamo Heights and Olmos Park to Stone Oak, Castle Hills, the Pearl District, and The Dominion. As trusted [San Antonio movers](#), the company emphasizes that real local knowledge cannot be found on a map. Its coordinators know which downtown buildings require parking permits, which Stone Oak communities require certificates of insurance and freight elevator reservations, and which older streets are too narrow for a 26-foot truck.

That local expertise is paired with a transparent approach to pricing that has become central to the company's identity. Evolution Moving Company publishes its hourly rates and provides a written not-to-exceed total before move day, so the number quoted is the number paid. The

company charges no truck fees, no stair fees, and no long-carry fees, a practice it says removes the most common surprises customers encounter on moving day. Every quote is backed by a written service promise covering arrival windows and claim resolution. As a full-service moving company in San Antonio TX, Evolution handles far more than basic household moves. The company provides residential and commercial relocations, long-distance moves across the lower 48 states with the same crew loading and unloading, labor-only services for customers who already have a truck or container, professional packing, and specialty piano moving with climate-controlled transport.

Whether the job is a studio apartment off Broadway or a five-bedroom estate, the company assigns trained, full-time crews rather than day laborers. The people behind each move are a point of emphasis for the company. Every crew member is a W-2 employee who completes a two-week in-house training program and passes federal and state background checks and drug screening before their first paid move. Evolution is also fully licensed and insured, operating under USDOT 2467590 and TX DMV 006779351c, with liability, workers' compensation, and cargo coverage. The company notes that it is not a broker, meaning customers who book Evolution are served by Evolution rather than having their move resold to a third-party contractor.

Demand from [local movers](#) and military families has helped fuel the company's growth. Evolution handles a high volume of PCS and military relocations from Joint Base San Antonio, Lackland Air Force Base, Randolph Air Force Base, and Fort Sam Houston, coordinating with transportation offices and offering military discounts on request.
