

U.S. News & World Report Names JWU Online Programs Among The Best

JWU Online programs ranked in Best Online Bachelor's in Business Programs, Best Online Master's rankings

PROVIDENCE, RI, UNITED STATES, June 1, 2026 /EINPresswire.com/ -- Johnson & Wales University's online degree programs were recognized among the best, according to a recent ranking from U.S. News and World report.

JWU Online's degree-granting distance education business programs received a Best Online Programs ranking in the category of Best Online Bachelor's in Business Programs. JWU Online was also recognized for ranking in the category of Best Online Master's in Criminal Justice programs.

"We are proud of our US News & World Report rankings for 2026 in an increasingly competitive market for online higher education," said Cindy Parker, vice president of JWU Online. "These rankings provide validation of the quality of our academic programs and support our brand and reputation. The rankings can shape perceptions and influence choices among prospective students who are interested in our academic programs."

Unlike other rankings from the organization, U.S. News & World Report considers individual programs for the online list, rather than the college or university as a whole. The Best Online Programs rankings measure whether online degree programs have academic standards that are equal in quality to brick-and-mortar (on-campus) programs, for which the teaching methods, learning activities and assignments are appropriately adapted for distance education.
