

NPSOne webinar spotlights Smart Invoicing for business owners

On-demand session demonstrates real-time QuickBooks integration, AR automation

FORT LAUDERDALE, FL, UNITED STATES, June 2, 2026 /EINPresswire.com/ -- [Allen Kopelman](#) and NPSOne released a new episode of their educational [webinar](#) series, introducing Smart Invoicing and automated accounts receivable for businesses.

Originally aired in April 2026, the Smart Invoicing webinar is now available on demand on YouTube as part of the ongoing NPSOne webinar series launched by Kopelman, co-founder and CEO of Nationwide Payment Systems and host of B2B Vault: The Biz to Biz [Podcast](#). The series was created to help business owners better understand payment technology, automation tools and operational strategies that improve efficiency and cash flow.

The Smart Invoicing episode focuses on growing challenges businesses face with manual invoicing, payment collection and reconciliation processes. During the webinar, Kopelman demonstrates how NPSOne Smart Invoicing tools integrate directly with QuickBooks to automate invoicing workflows, reduce administrative workload and simplify customer payments.

"Business owners spend too much time chasing invoices and manually reconciling payments," Kopelman said. "The goal of this webinar series is to educate businesses on tools that help them automate processes, improve cash flow and operate more efficiently."

The webinar highlights Smart Invoicing capabilities, including:

- Real-time QuickBooks synchronization without manual entry

NPSONE - Payment Platform

Allen Kopelman B2B Vault Podcast

- Automated invoicing, reminders and payment reconciliation
- Integrated payment acceptance for ACH, credit cards, Apple Pay and Google Pay
- White-label payment portals that maintain a company's branding
- Reduced employee exposure to QuickBooks credentials and sensitive accounting data
- Simplified payment management through a centralized platform

The session is designed for business owners, finance teams, bookkeepers, accountants and entrepreneurs seeking ways to modernize accounts receivable and reduce manual processes.

Business owners spend too much time chasing invoices and manually reconciling payments. The goal of this webinar series is to help automate processes, improve cash flow and operate more efficiently."

Allen Kopelman

The Smart Invoicing webinar is part of a broader NPSOne educational initiative launched earlier this year by Kopelman and Nationwide Payment Systems. The ongoing series covers payment technology, business automation, invoicing solutions, operational best practices and other key topics of interest among growing businesses.

The Smart Invoicing episode is available for on demand viewing on YouTube.

About NPSOne

NPSOne is a business payments and automation platform developed by Nationwide Payment Systems to help businesses simplify payment acceptance, invoicing and operational workflows. The platform includes smart invoicing, ACH processing, digital wallet acceptance, integrated payment solutions and QuickBooks-connected automation tools designed to improve efficiency and cash flow management.

About Nationwide Payment Systems

Founded in 2001, Nationwide Payment Systems is a South Florida-based payments technology company providing payment processing, business automation and commerce solutions to businesses throughout the United States. Under the leadership of Allen Kopelman, the company focuses on helping businesses modernize operations through integrated payment and financial technology solutions.
