

aZengear Launches Shoe Repair & Big Toe Hole Preventer Patch Kit - A 60-Second Fix for Worn Trainers, Boots and Heels

New stick-on repair kit from the UK brand lets wearers extend the life of their favourite shoes without glue, tools or a trip to the cobbler.

LONDON, UNITED KINGDOM, June 3, 2026 /EINPresswire.com/ -- aZengear®, the UK-based outdoor accessories brand, today announced the launch of its new [Shoe Heel Repair & Big Toe Hole Preventer Patch Kit](#), a stick-on solution designed to fix worn heel and mesh linings as well as stop big toe holes before they start. The kit is the latest addition to the brand's "Repair Your Gear, Stay Ready in Comfort" range and, like most aZengear products, is certified carbon neutral by ClimatePartner.

Worn inner heels and toe holes are among the most common reasons people retire shoes that are otherwise perfectly good. aZengear's new kit tackles both problems with a single, easy-to-use set, helping wearers save money and keep shoes out of landfill.

"Most people throw away trainers and boots over damage that takes a minute to fix," said a spokesperson for aZengear. "We wanted to give people a quick, reliable way to repair the parts that wear out first — and to do it in a way that's kinder to the planet."

Designed to repair and protect

The kit includes four different patch sets — four burst-toe repair patches, two thin heel patches and two thicker heel patches — in pre-cut, trimmable shapes that fit men's boots, women's

heels, athletic trainers and casual shoes. Each patch uses a strong self-adhesive backing that bonds to fabric, leather and synthetic materials without sewing, glue or tools.

Key features include:

Industrial-strength adhesive engineered to stay put through hundreds of wear cycles
Soft microfiber suede that feels comfortable against the heel
60-second application — clean, peel, press; no drying time
Universal multi-size fit with trimmable patches for a custom result
Heel and big toe protection to extend the life of dress shoes, everyday trainers and favourite heels

The kit's performance has been independently lab-tested for quality and durability, and the soft-suede patches are built for months of use under normal wear.

Sustainability at the core

“

Most people throw away shoes over damage that takes a minute to fix. We wanted to give people a quick, reliable way to repair the parts that wear out first.”

Emily Carter, Product Development Manager

The Shoe Heel Repair & Big Toe Hole Preventer Patch Kit is certified carbon neutral by ClimatePartner, reflecting aZengear's wider commitment to lower-impact products that help people repair rather than replace. The new kit joins the brand's best-selling line-up of repair essentials, including its popular self-adhesive jacket repair patches, iron-on denim repair patches, and its tent and sleeping bag repair patches and tenacious, clear, waterproof tape — all designed to keep favourite gear in use for longer.

Pricing and availability

The Shoe Heel Repair & Big Toe Hole Preventer Patch Kit is on sale now with an introductory offer in the UK, EU, USA, Canada, Australia and Japan. It can be purchased at azengear.com as well as through [Decathlon](https://www.decathlon.co.uk), [Etsy](https://www.etsy.com), [Amazon](https://www.amazon.co.uk), [Ebay](https://www.ebay.co.uk), [Walmart](https://www.walmart.co.uk), [B&Q](https://www.bq.com) and [Tesco](https://www.tesco.com).
