

AA Limousine and Sedan Celebrates 24+ Years of Luxury Transportation Across Washington DC, Maryland, Virginia & Texas

AA Limousine and Sedan marks 24+ years of luxury service across Washington DC, Maryland, Virginia, and Texas.

WASHINGTON, DC, DC, UNITED STATES, June 3, 2026 /EINPresswire.com/ --

Washington, DC, AA Limousine and Sedan is a trusted luxury transportation company that provides services across all of DC and the nearby states including Maryland, Virginia and Texas. AA Limousine and Sedan has announced that they are celebrating their 24 years of serving people with premium chauffeured transportation solutions. The company started in the early 2000s when the competition was high compared to today. Marking over two and a half decades in operation, the achievement shows that they are dedicated to their goals. From local [executive transportation in Washington DC](#) to large-scale regional expansion across nearby states, AA Limousine and Sedan has become one of the top luxury transportation companies in the region.

AA Limousine and Sedan Celebrates 24+ Years of Luxury Transportation Across Washington DC, Maryland, Virginia & Texas

The celebration of an anniversary is not only about the company's growth but also the relationships built with thousands of business travellers, locals and corporate clients. Our media team covered the anniversary celebration of AA Limousine and Sedan, which they celebrated in the capital of the USA. Their senior panel answered several questions and started their speech with:

“Welcome ladies and gentlemen, another year, another anniversary and another yummy dinner. Successfully, we have completed 24 years and are looking forward to entering a new era with full passion and excitement...”

His speech was full of gratitude for the people who supported AA Limousine and Sedan to reach

this position. He said that the company has faced several moments in which there was nothing left but hope but is grateful for the team who supported AA Limo in all moments of hardship.

More Than Two Decades of Growth and Industry Experience

Founded with a vision of delivering dependable and elevated transportation experiences, AA Limo started providing services in one of the busiest cities, Washington DC. The journey started in the early 2000s when everyone preferred private transportation because there was no app based transportation. They began with a small operation center and a few vehicles. As one of their seniors told us:

Serving Washington DC, Maryland, Virginia, and Texas, AA Limousine celebrates over two decades of premium transportation.

“I remember the day we covered our first ride. I still remember it. That day we thought that we could not do this but our CEO encouraged us to be stress free and cover the ride. It was an airport transfer that we did and I was providing instructions to the chauffeur about the traffic blockage on the main DC road.”

“

In these past 24 years we have achieved remarkable accomplishment including fleet expansion, adding more services and expanding to other areas. And all this happened just because of the team we have.”

CEO AA Limousine and Sedan

(David H., Operations Manager)

Over the past 24+ years, the company has expanded beyond traditional limousine services to offer a broader range of executive transportation solutions. In the beginning, they were only covering transportation for the airport, but later they added new vehicles to the fleet and expanded services. After a month, AA Limousine and

Sedan decided to add SUVs and provide group transportation for corporate clients, delegations, and celebrities.

Answering our question, when did you start group transportation? Their manager said “Probably after 4 months of the first operation. The demand for group transportation was high so we added new SUVs at that time and started covering corporate travels, family trips and transportation for small groups of people.” He also said that they were eager in the beginning

but after a few weeks, they also faced a number of challenges.

“We thought that it was only about vehicles so I talked to our CEO and he approved the idea of SUVs but at that time I did not focus on the fact that we should have a dedicated team of chauffeurs and we hired average drivers but when complaints were received, I was perplexed to focus on how I could fix this problem.”

(Seth B. General Manager)

He further added that they employed a dedicated team of chauffeurs for SUVs and worked on the quality of their services. What started as a regional luxury transportation provider has become a multi market operation serving clients. AA Limousine and Sedan began in Washington DC but now they are serving a number of states including Texas, Maryland, and Virginia.

Serving Washington DC Through Decades of Change

AA Limousine and Sedan has seen a number of changes throughout the Washington region over the last 24 years. They also experienced the arrival of rideshare apps and competed against the giant competitors in DC. “For a moment, it was a joke for me that you can book a car using an app and when I tested, it was real and I said to myself that it is the end of private transportation,” said a chauffeur of AA Limousine and Sedan.

Throughout these major changes, the company maintained a strong presence serving people across Washington DC and neighboring communities. “Our manager strictly instructed that we have to focus on quality because this is the thing that rideshare apps do not have and we did as he said,” said the chauffeur to the media team while discussing the hardships AA Limousine and Sedan faced.

With 24+ years of excellence, AA Limousine continues to serve Washington DC, Maryland, Virginia, and Texas.

AA Limousine and Sedan celebrates over 24 years of luxury rides across Washington DC, Maryland, Virginia, and Texas.

The company's transportation services have supported corporate executives, government professionals, airport travellers, wedding transportation clients, event transportation, business travellers and group transportation needs. "And after one or probably one and a half weeks, we received a call that someone could not catch the flight just because a rideshare app driver cancelled the ride at the last moment and they were unable to reach the airport on time. That was the moment I understood why our manager instructed us to focus on quality, "the chauffeur told our media team.

Over time, the services of AA Limousine and Sedan expanded beyond DC. They opened operation centers in the neighbouring states including Texas, Maryland and Virginia. While maintaining the company's emphasis on luxury and professionalism.

Expansion Beyond the Capital Region

During the anniversary celebration, AA Limousine and Sedan showcased the videos and images of the past. The entire time remembered the time they began working in the nearby states of Washington DC. AA Limousine and Sedan is operating in 3 regions other than Washington DC. It includes Maryland areas like Bethesda, Rockville, Potomac, Silver Spring, Baltimore, and surrounding communities. Additionally, they provide luxury limo and sedan transportation in Virginia such as Alexandria, Arlington, Fairfax, McLean, and nearby areas. Plus, they have multiple operation centers in Texas including Houston, Dallas, Austin, Fort Worth, and San Antonio.

"In these past 24 years we have achieved remarkable accomplishments including fleet expansion, adding more services and expanding to other areas. And all this happened just because of the team we have. It was not my effort, I was the one who just had a vision but you were the people who brought my vision into reality. So, thank you team AA Limo and Sedan, I am proud of you."

(CEO AA Limousine and Sedan)

AA Limousine and Sedan not only expanded the areas but also started providing luxury transportation for the major airports. They cover Ronald Reagan Washington National Airport, [Washington Dulles International Airport](#), Baltimore/Washington International, Thurgood Marshall Airport, Dallas/Fort Worth International Airport, Austin-Bergstrom International Airport, [George Bush Intercontinental Airport](#). The service continues to represent one of the company's fastest growing transportation segments.

"Twenty-four years taught us something important, clients remember how you make them feel. Luxury transportation isn't only about arriving somewhere. It's about trust, comfort, and knowing expectations will be met every time."
