

ZenaTech Completes 23rd Drone as a Service Acquisition, Expanding Colorado Presence in Southeast Denver Corridor

Company also advances towards its stated goal of acquiring 25 companies by mid-2026

VANCOUVER, BRITISH COLUMBIA, CANADA, June 3, 2026 /EINPresswire.com/ -- [ZenaTech, Inc.](#) (Nasdaq: ZENA) (FSE: 49Q) (BMV: ZENA) ("ZenaTech"), a technology solution provider specializing in AI (Artificial Intelligence) drone, Drone as a Service (DaaS), enterprise SaaS, and Quantum Computing solutions, today announces it has closed its 23rd acquisition and second land survey engineering firm in Colorado with the acquisition of High Prairie Survey Company. The acquired company has a longstanding track record serving real estate clients, residential developers, construction companies, and infrastructure clients across the southeastern Denver metropolitan area and growth corridor. As ZenaTech's 23rd acquisition, this transaction further expands the Company's DaaS and AI-autonomy platform across the U.S. and globally, while closing in on its stated goal of acquiring 25 companies by mid-2026.

ZenaTech completes its 23rd acquisition, expanding its Drone as a Service platform across Colorado's fast-growing development corridor.

High Prairie Survey strengthens ZenaTech's AI-powered surveying network as the company nears its goal of 25 acquisitions by mid-2026.

"This acquisition strengthens our presence in Colorado and expands our access to a growing

This acquisition strengthens our presence in Colorado and expands our access to a growing base of recurring land surveying and development-related customers.”

ZenaTech, Inc.*

base of recurring land surveying and development-related customers,” said Shaun Passley, Ph.D., ZenaTech CEO. “High Prairie brings decades of trusted client relationships, a strong regional reputation, and deep expertise in surveying services. By integrating these operations into our Drone as a Service, or DaaS, platform, we can enhance operational efficiency, accelerate project timelines, and deliver greater value to developers, builders, and infrastructure customers. This acquisition, also our second in Colorado, supports our strategy of transforming traditional surveying through drone-powered data collection, aerial intelligence, and AI-driven analytics while

expanding our recurring revenue opportunities.”

High Prairie Survey Company, based in Kiowa, Colorado, approximately 40 miles southeast of Denver, is a 40-year-established land surveying firm serving the rapidly growing communities of Castle Rock, Parker, Elizabeth, and surrounding areas across Douglas and Elbert counties. The company provides a broad range of surveying and land development services, including boundary and ALTA/NSPS land title surveys, construction staking, subdivision mapping, engineering support, and infrastructure-related surveying.

The acquisition strengthens ZenaTech’s presence in one of Colorado’s fastest-growing development corridors and expands the reach of its Drone as a Service (DaaS) platform as the second location in Colorado along with Rampart Surveys of Woodland Park. By integrating drone-powered surveying, aerial intelligence, and data analytics into High Prairie’s established operations, ZenaTech expects to enhance service capabilities for developers, builders, utility operator inspections, and agricultural and ranching customers while increasing operational scale and recurring revenue opportunities across the region.

ZenaTech’s Drone as a Service platform provides business and government clients with subscription-based access to faster and superior drone-based services for a host of surveying, inspection, maintenance, power washing, inventory management, and precision agriculture services, without the capital costs or operational burdens of ownership. By acquiring established, profitable service companies currently using low-tech and under digitized processes and ripe for drone innovation, ZenaTech is building a global, multi-service DaaS network of locations in communities anchored by existing customers and revenue, for next-generation drone integration designed for speed, precision and safety benefits.

About ZenaTech

ZenaTech, Inc. (Nasdaq: ZENA) (FSE: 49Q) (BMV: ZENA) is a technology company that specializes in AI autonomy drone platforms to transform industrial, government, and defense sectors. Its subsidiaries include drone manufacturing through ZenaDrone, a global Drone as a Service

(DaaS) business, and a separate enterprise SaaS division of multiple software brands. The Company is executing an acquisition-led DaaS roll-up strategy to digitize and automate legacy service industries like land surveys and inspections, driving drone-based scalable, recurring revenue growth. With an operating footprint spanning North America, Europe, the Middle East, and Asia, ZenaTech is advancing AI drones for agriculture and logistics, as well as ISR, cargo, and counter-UAS applications for U.S. defense and NATO allies. The company is investing in next-generation technologies, including drone swarms, quantum computing, and advanced AI autonomy to capture long-term opportunities in key markets through its R&D initiatives.

About ZenaDrone

ZenaDrone, a subsidiary of ZenaTech, develops and manufactures AI-powered multifunction autonomous drone solutions integrating machine learning, predictive analytics, and advanced computing technologies, for government, defense, and industrial applications. This includes multifunctional drones for surveying, inspections, logistics, security, and defense applications. Its product portfolio under development includes the ZenaDrone 1000 for ISR defense and specialized cargo, the IQ Nano for indoor inventory management and security, the IQ Square for outdoor inspections and maintenance, the IQ Quad for land surveying, and the IQ Aqua, for underwater applications. ZenaDrone operates three global manufacturing facilities in Arizona, Dubai, and Taiwan, and is advancing counter-UAS maritime interceptor drones and an integrated defense system.
