

EPIC Art: Facundo Yebne: ONE WORLD. One Game. Debuts At Kimpton EPIC Hotel In Downtown Miami

Award winning Miami artist FLY fills the Kimpton EPIC with thousands of rubber ducks for the World Cup, Pride and the USA 250th. On view June 3 to July 27.

MIAMI, FL, UNITED STATES, June 5, 2026 /EINPresswire.com/ -- As the world arrives in Miami for the 2026 FIFA World Cup, Argentine American artist Facundo Yebne, known as FLY, opens "[EPIC Art: Facundo Yebne - One World. One Game.](#)" at the [Kimpton EPIC Hotel](#) in Downtown Miami. On view June 3 to July 27, 2026, the exhibition fills the hotel lobby and 16th floor gallery with large scale pop art built entirely from thousands of mini rubber and resin ducks, many activated by UV light.

The show brings together three major 2026 moments: the FIFA World Cup, International Pride Month, and the 250th anniversary of the United States, with a clear message of unity. Thousands of identical little ducks, placed by hand, become images the whole world recognizes, transforming a playful everyday object into a metaphor for resilience, community, and shared humanity.

In the lobby stands UnityBeak Trilogy: Love, a single sculpture composed of thousands of mini rubber ducks. On the 16th floor, a long wall is built like a World Cup fixture: as nations advance, their jerseys will be created and installed, and the wall changes through the tournament, from the United States at one end to Argentina at the other. The United States side, FLY's adopted home and the tournament host, holds Don't Kuack With Liberty, America Peace, United Kuakies of America, and a Pulisic inspired jersey, while the Argentina side, his birthplace and the defending champion, holds an Argentine flag with a glow in the dark center, a heart in the

national colors, and the Messi jersey. Between them hang the flags of Mexico, Japan, Brazil, and France, the section that updates as teams advance.

At the center hangs the show's namesake. One World. One Game is a 36 by 36 inch canvas, with a large circle split in four: the American flag, a glow in the dark soccer ball, the colors of the rainbow, and the South American continent.

The sculpture Proud Love Pink anchors the World Cup Section with the Pride Wall on the other side where a Polaroid selfie spot is located followed by a Smiley and a peace sign with the pride colors.

An interactive kiosk tells the story of every work in the artist's own voice, and visitors who return during the tournament find the show changed week to week as new pieces are added.

FLY's work sits in the tradition of Pop and Conceptual Art, recalling Claes Oldenburg's transformation of the ordinary into the monumental and Ai Weiwei's reinterpretation of common objects as social commentary. The rubber duck, familiar and universal, becomes a symbol of identity, peace, and freedom, aligned with Kimpton EPIC Hotel's mission to showcase bold contemporary art in its Artist in Residence program.

“

ONE WORLD. One Game. celebrates what we share. No matter where we come from, we all understand the joy of a goal, the pride of a flag, and the power of coming together.”
