

# Sung Il Tex Vietnam Establishes a 100% Made in Vietnam Lining Supply Chain for FTA Markets

*Sung Il Tex Vietnam completes a fully Vietnam-made lining supply chain, enabling global brands to secure certified Vietnam-origin materials with faster delivery*

HONG KONG, NOT AVAILABLE, HONG KONG, June 8, 2026 /EINPresswire.com/ -- Sung Il Tex Vietnam Completes Establishment of a "100% Made in Vietnam" Lining Supply Chain for FTA Partner Countries

Issued by: Kang Kyung Rok, Managing Director, Sung Il Tex Vietnam

Sung Il Tex Vietnam announced that it has officially completed the establishment of a 100% Made in Vietnam lining supply chain dedicated to Vietnam and countries with which Vietnam maintains Free Trade Agreements (FTAs). This milestone marks a significant advancement in the company's ability to supply Vietnam-origin certified lining products that global fashion brands increasingly require.

According to Mr. Kr Kang, Managing Director of Sung Il Tex Vietnam, the new supply chain was built to meet rapidly growing demand for Vietnam-origin materials. "Global brands, particularly in the United States, Europe, and CPTPP member countries, are actively seeking alternative supply chains outside of China," said Mr. Kang. "Demand for Vietnam-origin linings is rising quickly as brands aim to maximize tariff benefits. Sung Il Tex Vietnam has established a complete Vietnam-based production platform to meet these needs."

The newly established supply chain includes:

Local Vietnam sourcing of yarns and a network of weaving and knitting production partners

Local dyeing and finishing facilities that comply with international environmental standards

In-country inventory and logistics centers enabling fast delivery

Provision of origin documents, including CPTPP and other FTA certificates

With this infrastructure, Sung Il Tex Vietnam can supply a wide range of Vietnam-produced lining materials—including polyester, recycled polyester, and cotton—meeting global brand

requirements while offering key advantages such as shorter lead times, reduced logistics risk, and maximized FTA tariff benefits.

Mr. Kr Kang further emphasized the long-term strategic importance of the initiative: “This supply chain is not simply a sourcing network; it is a ‘Vietnam production ecosystem’ designed to respond to global supply chain shifts over the next decade. Our goal is to become the most trusted Vietnam-based lining partner for global fashion brands.”

Sung Il Tex Vietnam plans to continue expanding its partner network and production capabilities through 2026–2027, including investments in sustainable materials and enhanced traceability systems.

#### About Sung Il Tex Vietnam

Sung Il Tex Vietnam is the Vietnam subsidiary of Sung Il Tex, a global leader in garment lining materials with production and operational bases in Korea, China, and Vietnam. The company provides innovative solutions such as sustainable linings, recycled polyester materials, and no-MOQ color stock services, supplying major fashion brands across the United States, Europe, and Asia.
