

Chelmsford Heating Engineers Scale Operations County Wide to Meet Unprecedented Smart Heating and Cooling Demand

Urban Heating & Cooling is expanding its heating, heat pump and air conditioning services across Essex to meet growing customer demand.

CHELMSFORD, ESSEX, UNITED KINGDOM, June 8, 2026

/EINPresswire.com/ -- [Urban Heating & Cooling](#) has announced the expansion of its services across Essex, following a significant increase in enquiries for heat pumps, air conditioning systems and energy-efficient heating solutions. Originally serving customers in Chelmsford, Brentwood and the surrounding areas, the company is now increasing its coverage across the county, including Braintree, Maldon, Ingatestone, Witham and other Essex towns.

The move comes as more homeowners look for ways to reduce energy costs, improve home comfort and prepare their properties for the future. Demand for air conditioning has also risen sharply in recent years, with many customers choosing modern systems that can both cool and heat their homes efficiently throughout the year.

Will Eastman, Founder of Urban Heating & Cooling, said: "We're seeing more homeowners than ever looking for long-term heating and cooling solutions rather than just quick fixes. Whether it's replacing an old boiler, installing a heat pump or fitting air conditioning, customers want systems that are efficient, reliable and economical to run."

“As demand continues to grow, expanding across Essex allows us to help more homeowners while maintaining the high standards of workmanship and customer service we’ve built our reputation on.”

Urban Heating & Cooling provides boiler installations, boiler servicing, heat pump installations, air conditioning systems and general heating services for homeowners throughout Essex. The company is fully Gas Safe registered and F-Gas certified, ensuring all work is carried out safely and in accordance with current industry regulations.
