Premier trial firm unleashes aggressive 18-wheeler and commercial truck litigation division out of its Jersey City to protect motorists from corporate tactics.

NEW JERSEY , NJ, UNITED STATES, June 9, 2026 /EINPresswire.com/ --

Karns & Karns Personal Injury and Accident Attorneys, a family-owned trial powerhouse with over \$300 million recovered for the injured, has officially announced the expansion of its Commercial Trucking and Catastrophic Injury Division in New Jersey. Operating from its flagship hub in Jersey City, the firm's trial-ready attorneys are launching a direct campaign to litigate complex commercial fleet collisions and holding corporate carriers accountable for severe highway safety violations.

The commercial shipping corridors in New Jersey are among the most congested and hazardous in the country”

The Interstate Freight Crisis: Overloaded Trucks on the NJ Turnpike

New Jersey serves as the primary East Coast logistics artery, resulting in intense commercial truck volume across the state's major turnpikes and expressways. Catastrophic collisions involving multi-ton 18-wheelers, heavy cargo carriers, and rapid transit commercial box trucks along the New Jersey Turnpike, Garden State Parkway, and Interstate 95 require immediate, highly technical legal intervention.

"The commercial shipping corridors in New Jersey are among the most congested and hazardous in the country," said Bill Karns, founding partner. "When a commercial trucking company violates

federal hours-of-service regulations or operates an improperly loaded vehicle, the resulting highway crashes are devastating. Corporate insurance carriers deploy immediate legal rapid-response teams to the scene to bury evidence. Motorists cannot rely on standard personal injury marketing operations to protect their families; you need a powerhouse trial firm."

The Trial Advantage Over New Jersey Advertising Operations

With New Jersey commuter routes heavily blanketed by legal marketing, Karns & Karns highlights the critical difference between generic case managers and proven courtroom trial lawyers.

"New Jersey drivers are inundated with high-volume advertising, but insurance networks aren't intimidated by a billboard," said Mike Karns, founding partner. "Many large advertising operations function as settlement mills—turning over thousands of cases quickly for whatever minimal check an insurer throws at them. At Karns & Karns, we handle our litigation in-house.

We aggressively secure Electronic Logging Device (ELD) data, commercial vehicle event data recorders, and fleet maintenance logs to prepare every case for a jury. Our trial readiness is what forces insurance carriers to pay maximum value."
