

London Educator Wahida Mohamed Introduces New Vision for Education Rooted in Storytelling, Identity and Human Connection

LONDON, ENGLAND, UNITED KINGDOM, June 9, 2026 /EINPresswire.com/ -- Author, educator, and founder of Wisdom Feast Ltd, Wahida Mohamed, is launching a new educational framework and upcoming book called *The 5 Successful Strategies to Education Through the Power of Storytelling* designed to transform how schools, parents, and communities support children's learning and development.

With more than 30 years of experience across secondary education, ESL teaching, Montessori practice, and early years learning, Wahida brings a deeply informed perspective to one of education's most urgent questions: how do we create learning environments where children feel seen, valued, and empowered?

Her work centers on a simple but powerful belief: education must go beyond academic achievement to include emotional well-being, cultural identity, storytelling, and belonging.

"I taught my two younger sisters to read and write when I was just eight years old," Wahida explains. "That moment showed me that education is not just about systems, it is about connection, care, and the belief that every voice matters."

Through Wisdom Feast Ltd, Wahida develops programmes that bring together schools, artists, families, and communities to create more holistic and inclusive approaches to learning.

Her upcoming book, *"5 Successful Strategies to Education Through The Power of Storytelling"* presents a practical framework for Education Leaders, educators and parents, offering new ways to integrate storytelling, creativity, and lived experience into everyday learning.

At the heart of her work is a mission to restore what she describes as "the forgotten language of childhood" or curiosity, imagination, and self-expression.

Key themes include:

Storytelling as a foundation for learning

Cultural identity and belonging in education

Emotional wellbeing in classrooms

Teacher-student-community collaboration

Reimagining success in education systems

Wahida Mohamed is available for interviews, expert commentary, and guest contributions across education, parenting, and human development platforms.
