

# Mule Products Introduces New Simple Summer Fan Solution

*Mule's new easy-install swag fan provides cooling relief in moments*

MEMPHIS, TN, UNITED STATES, June 8, 2026 /EINPresswire.com/ -- Mule Products is providing a new cooling solution for Summer 2026 with the introduction of their 20-inch Swag Plug-In Fan. This new fan provides consumers with a simple way to keep outdoor spaces comfortable without the need to hire an electrician or deal with wiring.

Mule's 20-inch Swag Fan plugs into a standard outlet using an included drop cord, making setup quick and easy. This makes adding a fan to spaces like patios, pergolas, and gazebos easier than ever. "This fan includes everything you need to hang it right out of the box

- including a ceiling mounting bracket," said Product Manager Brady Ondra. It also works with most standard downrods, so you can adjust the hanging height to fit your space.

MULE Swag Plug-in Ceiling Fan

The fan is fully wet-rated and finished in a matte black design, so it's built to handle rain and other weather conditions. It features a powerful DC motor with 3 speeds, giving you full control. Additionally, a version with a remote is also available, making it easy to adjust settings, even when the fan or pull chain is out of reach.

“

This fan includes everything you need to hang it right out of the box - including a ceiling mounting bracket.”

The new fan launches Monday, June 8th, starting at \$129.99 at [muleproducts.com](https://muleproducts.com). For updates, follow

@getthemule on [Instagram](https://www.instagram.com), TikTok, and [Facebook](https://www.facebook.com).

Built to be durable, easy to assemble, and adaptable, the Mule 20-inch Swag Plug-In Fan is a practical option for a wide range of outdoor spaces. This launch is the first in a series of releases coming this summer from Mule.
