

Goodbuy Purchasing Cooperative Expands Access to Classroom Typing Instruction

Approval under RFP 25-26 6E000 supports K-12 keyboarding curriculum and typing software access

TX, UNITED STATES, June 9, 2026 /EINPresswire.com/ -- eReflect Inc. announced that its keyboarding and typing curriculum platform, Typesy, has been approved through Goodbuy Purchasing Cooperative under RFP Number 25-26 6E000, Teaching Aids: Instructional/Classroom Supplies.

“

Structured keyboarding instruction supports stronger participation in digital learning. Typing skills continue to play an important role in classroom technology education.”

*Rick Mesias, Sales Director at
eReflect*

As technology becomes increasingly integrated into classroom instruction, schools continue seeking typing programs that help students strengthen keyboarding skills while supporting modern learning environments. Students regularly rely on computers for assignments, writing activities, online assessments, and digital communication throughout the school day.

Keyboarding fluency continues to be an important skill that

supports student productivity and participation in technology-based instruction. Many educators are looking for classroom typing software that can be integrated into existing instruction while helping students become more comfortable using classroom technology.

[Typesyfor Goodbuy Purchasing Cooperative](#) provides structured K-12 keyboarding instruction through guided typing lessons, interactive exercises, and classroom-focused activities designed to improve typing speed, typing accuracy, and overall keyboard familiarity.

The platform supports typing curriculum implementation across grade levels while giving educators tools to assign lessons, review performance data, and monitor student keyboarding progress through classroom-friendly reporting features.

Students can progress through typing activities at their own pace while reinforcing practical keyboarding habits, digital fluency, and foundational computer skills that support everyday classroom learning.

Designed primarily for K-12 schools, Typesy also helps students strengthen broader technology confidence and digital learning readiness through guided classroom practice activities.
