and Competitive Analysis and Forecast
2030*

LONDON, GREATER LONDON, UNITED
KINGDOM, June 9, 2026

/EINPresswire.com/ -- "The waterproof

adhesives and sealants sector has been gaining significant traction lately, driven by various factors tied to construction and infrastructure growth. As demand for materials that prevent water damage rises, this market is poised for substantial expansion in the coming years. Let's explore the current market size, growth drivers, regional outlook, and key trends shaping the industry.

Expected to grow to \$41.94 billion in 2030 at a compound annual growth rate (CAGR) of 7.9%"

Current Size and Growth Projections for the Waterproof Adhesives and Sealants Market

The market for waterproof adhesives and sealants has seen solid growth in recent years. It is expected to increase from \$28.54 billion in 2025 to \$30.97 billion in 2026, reflecting a compound annual growth rate (CAGR) of 8.5%. This previous growth is mainly due to the expansion of

residential and commercial building projects, a surge in renovation and remodeling activities, heightened use of sealants in the transportation sector, rising demand for leak-resistant interiors, and the availability of advanced adhesive formulations.

in infrastructure development, rising demand for long-lasting waterproof materials, growth in sealing applications for electric vehicles, a stronger focus on eco-friendly adhesive chemistries, and higher adoption rates in prefabricated construction methods. Notable trends expected to influence the market involve greater demand for high-performance waterproof bonding solutions, wider use of polyurethane and silicone-based products, expansion of interior and sanitary applications, durable construction sealants, and improved long-term moisture resistance.

Understanding the Role of Waterproof Adhesives and Sealants in Construction

Waterproof adhesives and sealants are specialized chemical products designed to endure harsh environmental conditions such as rain, humidity, and sunlight. Their primary function is to prevent water leakage and the damage it can cause. These materials are widely used in interior settings, sealing areas like floor joints, bathtubs, sinks, and showers. By enhancing the water resistance of construction materials, they contribute to better performance and increased longevity of buildings and installations.

Building Industry Expansion as a Major Growth Driver

The continued growth of the building and construction sector is a significant factor propelling the waterproof adhesives and sealants market. This industry encompasses the creation and maintenance of buildings and infrastructure, including activities such as manufacturing, trading, repairs, and renovations. Waterproof adhesives and sealants play a critical role here by preventing liquids from penetrating surfaces and joints and protecting building materials from water damage. For instance, in April 2025, Nilead, a Vietnam-based digital solutions platform, reported that US construction spending rose by 3.2% from 2022 to 2023, with expectations for steady growth in 2025. This upward trend in building activities supports the expanding demand for waterproof adhesives and sealants.

Regional Overview and Growth Opportunities in the Waterproof Adhesives and Sealants Market

In 2025, Asia-Pacific was the largest regional market for waterproof adhesives and sealants and is also expected to be the fastest-growing area during the forecast period. The market analysis includes key regions such as Asia-Pacific, South East Asia, Western Europe, Eastern Europe, North America, South America, the Middle East, and Africa, offering a broad perspective on global developments and growth potential across different territories.

Our 2026 market reports now feature expanded strategic intelligence through market attractiveness scoring and analysis, total addressable market (TAM) analysis, company scoring matrix graphics and tables, Excel-based dashboards, market hotspots infographics, key technology and future trend analysis, along with updated graphics and tables.
