Recognising Achievement Across the UK Property Sector

The achievements recognised in the 2026 Property Awards reflect the breadth and complexity of today's property industry. This year's winners and finalists include family-run agencies, independent estate agents, lettings specialists, commercial property teams, property management providers, investment-focused agencies, and advisory businesses supporting landlords with long-term planning. Across the awards, success has been built through a combination of local knowledge, structured processes, transparent communication, and a clear commitment to serving clients responsibly.

Many of the recognised businesses have demonstrated strong growth while retaining a personal, service-led approach. Their work includes supporting landlords and tenants through responsive property management, guiding buyers and sellers through complex transactions, strengthening commercial and residential agency services, adopting new systems and technology, and helping clients navigate the financial and strategic challenges associated with property ownership. Several also show a clear commitment to their communities, whether through charitable work, local sponsorship, or direct support for residents.

The 2026 Property Awards also acknowledge the resilience and adaptability required to operate successfully in the property sector. From smaller independent teams building reputations through referrals and long-term relationships, to established agencies expanding services, improving marketing, and investing in operational systems, the recognised businesses demonstrate that quality in property is measured not only by transactions completed, but by trust, consistency, professionalism, and the ability to support people through important property decisions. Business Awards UK congratulates all winners and finalists for their achievements and continued contribution to the UK property sector.
