Getting Screened Can Save Lives

"These partnerships allow us to meet men where they are, whether that's through clinical care, mental health support, or financial guidance," said Rochelle-R.E. Magno, President and Founder of Glamming The Warrior.

"Life Screening is more than just a medical event, it's a movement to normalize men taking control of their health and understanding that support exists in many forms."
"

A Holistic Approach to Men's Health

Life Screening goes beyond traditional screenings by integrating physical, emotional, and educational support systems. From medical professionals providing screenings to organizations addressing grief, mental health, and lifestyle, the event creates a safe and relatable environment for men to engage without stigma.

Addressing a Critical Need

Prostate and colorectal cancers remain among the most common cancers affecting men in the United States. Early detection significantly increases survival rates, yet many men delay screenings due to fear, lack of access, or misinformation. Life Screening directly addresses these barriers through accessibility, education, and community-driven outreach.

Sponsorship & Community Impact

Community members, organizations, and corporate partners are invited to support the initiative through

sponsorship opportunities, including:

Sponsor 10 Men for \$1,000 – Directly funds needs of men participating at the event. Sponsors receive visibility on social media platforms, and on-site activations, aligning their brand with a life-saving mission that directly impacts the local community.
