June 8, 2026 -- Driven by a relentless mission to fight financial fraud, accounting firm owners Aaron and Rebecca Novinger have officially launched their 3rd Annual "Pedaling Against Ponzis" cross-country charity bike ride. Aaron is once again hopping into his eye-catching, bright blue aerodynamic velomobile—a completely human-powered, no-motor "rocket bike"—to pedal 2,000 miles from the Dallas/Fort Worth metroplex to the steps of the U.S. Capitol in Washington, D.C.

While previous rides focused on lobbying to save a vital tax loophole from expiring, this year's 2,000-mile journey is a victory lap with a critical new mission: awareness. IRS Form 4684 Section C secures a lifeline that helps victims receive up to a 95% income credit on their losses. Now, the goal is to ensure that every victim, family, and financial advisor in the country knows this powerful recovery tool exists, while simultaneously gathering signatures on PonziRelief.org to show nationwide support.

While Aaron is on the road with a support van, Rebecca Novinger manages the ride's logistics, safety, and nationwide outreach from their home office. Together, they form an unstoppable team advocating for the silent victims that the financial system too often leaves behind.

The Mission Behind the Miles

Ponzi schemes aren't just headlines; they are catastrophic events that carry a permanent weight for the families involved. The Novingers are determined to bring the quiet, hidden crime of
